

# ANNIVERSARY OF A HORRIBLE LIE: 9/11

Ricardo Beas -- September 2012

***"He (Nick Rockefeller) told me eleven months before 9/11 ever happened that there was going to be an event, never told me what the event was going to be ... and out of that event we were going to invade Afghanistan to run pipelines through the Caspian Sea; we were going to invade Iraq, to take over the oil fields, establish a base in the Middle East and make it all part of the New World Order and we'd go after Chavez in Venezuela ...***

***And I remember he was telling me how ... we're going to see soldiers looking in caves for people in Afghanistan and Pakistan and all these places and there's going to be this war on terror ..."***

On September 11 the radio and TV did not stop playing tribute to the United States in the anniversary of the 9/11 attack. They are intended to remind us that we are a country at war, our enemy is called Terrorism and we must be afraid of the terrorists, while at the same time we must be strong and determined to fight and defeat them - wherever they may be!

Why do they hate us? It's plain and simple, according to president George Bush Jr., these terrorist "hate freedom." It's understandable: who doesn't hate free people?

I don't need an architect, nor my university professor, nor a Middle East scholar from some think tank, nor Noam Chomsky, nor generals, nor congressman, nor even the President to tell me what is evident:

1. How can two buildings made to withstand an airplane crash simply collapse in free-fall (no structural resistance) in about 10 seconds? Both collapsed straight down (one had the main damage in one corner) like all other intentionally demolished buildings we have seen on TV, and both within a very short time, after 52 and 102 minutes of being hit.

2. How could building 7, which was not hit by a plane, with a fire on the side of the building just collapse also in free-fall, conveniently first collapsing from the center of the structure?

3. How could a plane like those that hit the World Trade Center hit the Pentagon and only leave a hole with no wing span damaged as seen on the towers?

4. How come the debris in the area in the Pentagon was immediately cleared away after the crash?

5. How could the airplane jet engines at the Pentagon evaporate due to the crash as the official story claims?

6. With all the security cameras that surely must be all over the Pentagon, how come we have never seen any photos or videos of the plane crashing?

7. How is it that the crash of the fourth plane in Pennsylvania only left a ditch that one person described as a whole with a bunch of debris thrown into it? What large parts of an airplane? There were no engines here to recover either.

Compare to this plane crash:

8. How is it possible that on the day of the attack the military was having a drill simulating a terrorist attack? (Note: The same thing happened in the London subway attacks, they were also having a drill simulating a terrorist attack, on the same day, at the same time and at the same stations where it occurred, called [Operation Osiris](#)).

9. How is it that 4 commercial jets were hijacked around the same time and were flying erratically for more than an hour and no military action was taken against them?

10. In all the fire, destruction and debris of the World Trade Center collapse, how could they find one of the terrorist's passport in the rubble? How were they able to know so much about them within a short period of time?

This are only the obvious things that we need to consider. To see a full documentary on the subject, for you to make up your own mind, [click here: Loose Change](#). Maybe you will not agree with all the conclusions, but some are simply undeniable! This was simply an assassination on a large scale, at least I think so. We cannot hide our heads in the sand. As I told a friend, there are a thousand frightening reasons why we would wish the 9/11 conspiracy was not true, especially if we consider that to carry out this attack we would need not only five, ten or a hundred persons to be involved, it

would have to be thousands - difficult to even fathom. But we have to trust our eyes and reasoning in order to find the truth.

And if it was planned, it was not just to crash some planes, bigger goals must be at stake.

No matter how much you believe in the philosophy of "The Secret," we cannot use a positive mental attitude to get us out of this mess.

Our next step? It's up to you. Me, I just want to give you all the details and hope you will take the time to consider it and share the information with your network of friends: *about our tragic situation.*

Best wishes,

Ricardo
