VACCINES CAUSE HOMOSEXUALITY

http://www.huffingtonpost.com/2013/04/01/vaccines-produce-homosexuality-gay-gian-paolo-vanoli_n_2992953.html

An Italian scientist is arguing that vaccinations produce homosexuality.

Gian Paolo Vanoli, a 70-year-old scientist, journalist and opponent of vaccinations, says that vaccines make people gay.

Vanoli, who's a proponent of alternative medicine, recently spoke with Vice Italy's Matteo Lenardon about his ideals.

Via a Huffington Post translation of the Vice interview:

- The vaccine is introduced into the child, the child then grows and tries to find its own personality, and if this is inhibited by mercury or other substances present in the vaccine which enter the brain, the child becomes gay. The problem will especially be present in the next generations, because when gays have children, the children will carry along with them the DNA of their parent's illness. Because homosexuality is a disease, even though the WHO has decided that it is not. Who caSres! The reality is that it is so. Each vaccination produces homosexuality, because it prevents the formation of one's personality. It is a microform of autism, if you will. You will see how many gays there will be in the next generation, it will be a disaster.

Despite these views, Vanoli insists he supports same-sex marriage and gay adoption. He doesn't "blame" gay people for their "illness," just as he wouldn't blame someone who "suffers from cancer or a heart attack," he told GayStarNews.

"But we have to say that it's an illness, someth that does not respect the order of life," he told the outlet. "One of the main causes is represented by vaccines, which go against life, disturbing our mind and our spirit. The proof ovf that is the big increase in the number of homosexuals. Since mass vaccination began, this is the result."

Some of Vanoli's arguments, however, ha been disputed for more than 30 years.

In 1975, for example, the American Psychological Association removed homosexuality from its list of mental disorders, citing that "research has found no inherent association between any of these sexual orientations and psychopathology." The APA goes on to say that "no findings have emerged that permit scientists to conclude that sexual orientation is determined by any particular factor or factors."

Gay rights in Italy continue to lag. Same-sex marriage is not legal in the country, and at least one top politician has publicly likened it to supporting pedophilia.

Note that there are ethical considerations for any attorney using funds raised from third parties. Such a firm's fiduciary duty must only run to the client(s), if any, that it would represent to challenge SB277 and such representation cannot be influenced by third parties. Hence, if sufficient funds are raised and hence not refunded, they shall be an irrevocable gift that does not entitle the gifter to any rights, legal representation, or influence, in any manner whatsoever, related in the representation of any client(s) of any firm using these funds. The only client to whom such firm will owe a fiduciary duty, whose direction it will follow, and whose interests it is fiduciary bound to protect will be the actual plaintiffs on whose behalf the firm may seek to challenge SB277. Such are the ethical restrictions that any such law firm must abide.

We appreciate any and all donations, however we are in no way representing any guarantee of outcome for your benefit. Nor are we representing any other type of guarantee associated with any lawsuit that may arise. There are no refunds being offered under any circumstances.

Cases Parents rights over children and medication

The U.S. Supreme Court recognizes the right to refuse unwanted medical interventions. [Cruzan v. Director Missouri Dept. Health, (1990) 497 U.S. 261, 278] And, when it comes to the children's best interests, it is the parents, not the State, who shall have the right to make healthcare decisions. A child is not a "mere creature of the State." [Parham v. J.R., (1979) 422 U.S. 584]

... vaccines nevertheless remain "unavoidably unsafe." [Bruesewitz v. Wyeth LLC, (2011) 562 U.S. 223, 131 S. Ct. 1068, 1089, 179 L. Ed. 2d 1] - <http://caselaw.findlaw.com/us-supreme-court/09-152.html>

Justice Scalia, held that the "*plaintiffs design defect claims [were] expressly preempted by the Vaccine Act.*" Thus, the court affirmed laws which have established that vaccine manufacturers are not liable for vaccine-induced injury or death, as long as they are "*accompanied by proper directions and warnings.*"^[2]

Footnote 17 See, e.g., *Kearl*, 172 Cal. App. 3d, at 831, n. 15, 218 Cal. Rptr., at 465, n. 15 ("[T]he unavoidably dangerous product doctrine merely exempts the product from a strict liability design defect analysis; a plaintiff remains free to pursue his design defect theory on the basis of negligence"); *Toner*, 112 Idaho, at 340, 732 P. 2d, at 309-310 ("The authorities universally agree that where a product is deemed unavoidably unsafe, the plaintiff is deprived of the advantage of a strict liability cause of action, but may proceed under a negligence cause of action").

The United States Court of Appeals recognizes that medical science is a "field bereft of complete and direct proof of how vaccines affect the human body." [*Althen v. Sec'y of Health & Human Servs.*, 418 F.3d 1274 (Fed. Cir. 2005)]

<http://www.leginfo.ca.gov/cgi-bin/displaycode?section=gov&group=01001-02000&file=1450-1463>

Section 1450. (Enacted by Stats. 1943, Ch. 134.)

Cite as: Cal. Gov't. Code §1450.

1450. Unless otherwise provided, every official bond shall be filed in the proper office within the time prescribed for filing the oath.

1461. Any person appointed to fill a vacancy shall give a bond, corresponding in substance and form with the bond required of the officer originally elected or appointed, before entering upon the duties of the office.

1463. For the purposes of this chapter, a government crime insurance policy or employee dishonesty insurance policy, including faithful performance, may be provided as an alternative to the official bond by any county or city, subject to approval by the presiding judge of the superior court and recording and filing as provided in Sections 1457 to 1460.1, inclusive. An insurance policy procured pursuant to this section may be used as a master bond as though it were an official bond, subject to approval of the appointing power or the legislative body as provided in Section 1481.

1480. Every officer, agent or employee not required by statute to give an official bond may be required to give an individual official bond, or other form of individual bond, in the amount to be fixed by the appointing power and such bond shall inure to the benefit of the appointing power, state, county or municipality, by whom such officer, employee, or agent is employed as well as the officer under whom the employee or agent serves.

The appointing power shall obtain the approval of the Department of General Services before requiring any state officer, employee, or agent to give an individual bond pursuant to this section, and before including the name or position or office of any such officer,

employee, or agent in a master bond as provided in Section 1481.

1481. (a) When deemed expedient by the appointing power, a master official bond or other form of master bond may be used which shall provide coverage on more than one officer, employee, or agent who is required by the appointing power or the board of supervisors of a chartered or general law county to give bond.

1500. All official bonds shall be made payable to the State of California in such penalty and with such conditions as required by this article, or the law creating or regulating the duties of the office.

1501. The condition of an official bond shall be that the principal will well, truly, and faithfully perform all official duties then required of him by law, and also all such additional duties as may be imposed on him by any existing law of the State or law enacted subsequently to the execution of the bond.

Falsus in uno, falsus in omnibus

Falsus in uno, falsus in omnibus is a [Latin](#) phrase meaning "false in one thing, false in everything."^[2] At [common law](#), it is the legal principle that a witness who [testifies](#) falsely about one matter is not credible to testify about any matter.^[3]

Kanawha & M. Ry. Co. v. Kerse, 239 U.S. 576, 581 (1916) ("[T]he jury may reasonably have concluded that their testimony should be rejected in toto . . .").

Today, many jurisdictions have abandoned the principle as a formal rule of evidence and instead apply the rule as a "permissible inference that the jury may or may not draw."^[11] However, some courts continue to apply the doctrine to discredit witnesses that have previously offered false testimony.^[12] In 2013, for example, the [United States Court of Appeals for the Ninth Circuit](#) held that in immigration cases, a court may "use an adverse credibility finding on one claim to support an adverse finding on another claim."^[13] Likewise, at the [O.J. Simpson murder trial](#), Judge [Lance Ito](#) applied the doctrine to instruct the jury that "[a] witness who is willfully false in one material part of his or her testimony is to be distrusted in others."^[14]

CALIFORNIA CODE OF CIVIL PROCEDURE -- INJUNCTIONS

<http://www.leginfo.ca.gov/cgi-bin/displaycode?section=ccp&group=00001-01000&file=525-534>

525. An injunction is a writ or order requiring a person to refrain from a particular act. It may be granted by the court in which the action is brought, or by a judge thereof; and when granted by a judge, it may be enforced as an order of the court.

526. (a) **An injunction may be granted in the following cases:**

(1) **When it appears by the complaint that the plaintiff is entitled to the relief demanded**, and the relief, or any part thereof, consists in restraining the commission or continuance of the act complained of, either for a limited period or perpetually.

(2) **When it appears by the complaint or affidavits that the commission or continuance of some act during the litigation would produce waste, or great or irreparable injury, to a party to the action.**

(3) **When it appears, during the litigation, that a party to the**

action is doing, or threatens, or is about to do, or is procuring or suffering to be done, some act in violation of the rights of another party to the action respecting the subject of the action, and tending to render the judgment ineffectual.

(4) When pecuniary compensation would not afford adequate relief.

(5) Where it would be extremely difficult to ascertain the amount of compensation which would afford adequate relief.

(6) Where the restraint is necessary to prevent a multiplicity of judicial proceedings.

(7) Where the obligation arises from a trust.

527. (a) **A preliminary injunction may be granted at any time before judgment upon a verified complaint,** or upon affidavits if the complaint in the one case, or the affidavits in the other, show satisfactorily that sufficient grounds exist therefor. **No preliminary injunction shall be granted without notice to the opposing party.**

(b) **A temporary restraining order or a preliminary injunction, or both, may be granted in a class action, in which one or more of the parties sues or defends for the benefit of numerous parties upon the same grounds as in other actions, whether or not the class has been certified.**

(c) No temporary restraining order **shall be granted without notice** to the opposing party, unless both of the following requirements are satisfied:

(1) **It appears from facts shown by affidavit or by the verified complaint that great or irreparable injury will result to the applicant before the matter can be heard on notice.**

(2) The applicant or the applicant's attorney certifies one of the following to the court under oath:

(A) That within a reasonable time prior to the application the applicant informed the opposing party or the opposing party's attorney at what time and where the application would be made.

(B) That the applicant in good faith attempted but was unable to inform the opposing party and the opposing party's attorney, specifying the efforts made to contact them.

(C) That for reasons specified the applicant should not be required to so inform the opposing party or the opposing party's attorney.

(e) **The opposing party may, in response to an order to show cause, present affidavits relating to the granting of the preliminary injunction, and if the affidavits are served on the applicant at least two days prior to the hearing, the applicant shall not be entitled to any continuance on account thereof. On the day the order**

is made returnable, the hearing shall take precedence over all other matters on the calendar of the day, except older matters of the same character, and matters to which special precedence may be given by law. **When the cause is at issue it shall be set for trial at the earliest possible date and shall take precedence over all other cases**, except older matters of the same character, and matters to which special precedence may be given by law.

527.6. (a) (1) A person who has suffered harassment as defined in subdivision (b) may seek a temporary restraining order and an order after hearing prohibiting harassment as provided in this section.

(3) "Harassment" is unlawful violence, a credible threat of violence, or a knowing and willful course of conduct directed at a specific person that seriously alarms, annoys, or harasses the person, and that serves no legitimate purpose. The course of conduct must be such as would cause a reasonable person to suffer substantial emotional distress, and must actually cause substantial emotional distress to the petitioner.

2016 California Rules of Court

http://www.courts.ca.gov/cms/rules/index.cfm?title=three&linkid=rule3_1150

Rule 3.1150. Preliminary injunctions and bonds

(a) Manner of application and service

A party requesting a preliminary injunction may give notice of the request to the opposing or responding party either by **serving a noticed motion** under Code of Civil Procedure section 1005 **or by obtaining and serving an order to show cause** (OSC). An OSC must be used when a temporary restraining order (TRO) is sought, or if the party against whom the preliminary injunction is sought has not appeared in the action. If the responding party has not appeared, the OSC must be served in the same manner as a summons and complaint.

(b) Filing of complaint or obtaining of court file

If the action is initiated the same day a TRO or an OSC is sought, the complaint must be filed first. The moving party must provide a file-stamped copy of the complaint to the judge who will hear the application. If an application for a TRO or an OSC is made in an existing case, the moving party must request that the court file be made available to the judge hearing the application.

(c) Form of OSC and TRO

The OSC and TRO must be stated separately, with the OSC stated first. The restraining language sought in an OSC and a TRO must be separately stated in the OSC and the TRO and may not be incorporated by reference. The OSC must describe the injunction to be sought at the hearing. The TRO must describe the activities to be enjoined pending the hearing. A proposed OSC must contain blank spaces for the time and manner of service on responding parties, the date on which the proof of service must be delivered to the court hearing the OSC, a briefing schedule, and, if applicable, the expiration date of the TRO.

(d) Personal attendance

The moving party or counsel for the moving party must be personally present when the request for a TRO is made.

(e) Previous applications

An application for a TRO or an OSC must state whether there has been any previous application for similar relief and, if so, the result of the application.

(f) Undertaking

Notwithstanding rule 3.1312, whenever an application for a preliminary injunction is granted, a proposed order must be presented to the judge for signature, with an undertaking in the amount ordered, within one court day after the granting of the application or within the time ordered. Unless otherwise ordered, any restraining order previously granted remains in effect during the time allowed for presentation for signature of the order of injunction and undertaking. If the proposed order and the undertaking required are not presented within the time allowed, the TRO may be vacated without notice. All bonds and undertakings must comply with rule 3.1130.

(g) Ex parte temporary restraining orders

Applications for ex parte temporary restraining orders are governed by the ex parte rules in chapter 4 of this division.

ARREST WARRANT BUSH ET AL

<http://www.globalresearch.ca/international-criminal-court-complaint-filed-against-bush-cheney-rumsfeld-tenet-rice-gonzales/17091>

International Criminal Court (I.C.C.) Prosecutor by letter, fax, or email as indicated below.

Please accept my personal compliments. I have the honor hereby to file with you and the International Criminal Court this Complaint against U.S. citizens George W. Bush, Richard Cheney, Donald Rumsfeld, George Tenet, Condoleezza Rice, and Alberto Gonzales (hereinafter referred to as the “Accused”) for their criminal policy and practice of “extraordinary rendition.” This term is really a euphemism for the enforced disappearances of persons, their torture, severe deprivation of their liberty, their violent sexual abuse, and other inhumane acts perpetrated upon these Victims. The Accused have inflicted this criminal policy and practice of “extraordinary rendition” upon about one hundred (100) human beings, almost all of whom are Muslims/Arabs/Asians and People of Color. I doubt very seriously that the Accused would have inflicted these criminal practices upon 100 White Judeo-Christian men.

The Accused’s criminal policy and practice of “extraordinary rendition” are both “widespread” and “systematic” within the meaning of Rome Statute article 7(1). Therefore the Accused have committed numerous “Crimes against Humanity” in flagrant and repeated and longstanding violation of Rome Statute articles 5(1)(b), 7(1)(a), 7(1)(e), 7(1)(f), 7(1)(g), 7(1)(h), 7(1)(i), and 7(1)(k). Furthermore, the Accused’s Rome Statute Crimes Against Humanity of enforced disappearances of persons constitutes ongoing criminal activity that continues even as of today.

The United States is not a contracting party to the Rome Statute. Nevertheless, the Accused ordered and were responsible for the commission of these I.C.C. statutory crimes on, in, and over the respective territories of several I.C.C. member states, including many located in Europe. Therefore, the I.C.C. has jurisdiction over the Accused for their I.C.C. statutory crimes in accordance with Rome Statute article 12(2)(a), which provides as follows:

Article 12

Preconditions to the Exercise of Jurisdiction

...

2. In the case of article 13, paragraph (a) or (c), the Court may exercise its jurisdiction if one or more of the following States are Parties to this Statute or have accepted the jurisdiction of the Court in accordance with paragraph 3:

(a) The State on the territory of which the conduct in question occurred ...

So the fact that United States is not a contracting party to the Rome Statute is no bar to the I.C.C.'s prosecution of the Accused because they have ordered and been responsible for the commission of Rome Statute Crimes against Humanity on, in, and over the respective territories of several I.C.C. member states.

Consequently, I hereby respectfully request that the Court exercise its jurisdiction over the Accused for these Crimes against Humanity in accordance with Rome Statute article 13(c), which provides as follows:

Article 13

Exercise of Jurisdiction

The Court may exercise its jurisdiction with respect to a crime referred to in article 5 in accordance with the provisions of this Statute if:

...

(c) The Prosecutor has initiated an investigation in respect of such a crime in accordance with article 15.

Pursuant to Rome Statute article 13(c), I hereby respectfully request that you initiate an investigation proprio motu against the Accused in accordance with Rome Statute article 15(1): "The Prosecutor may initiate investigations proprio motu on the basis of information on crimes within the jurisdiction of the Court." My detailed Complaint against the Accused constitutes the sufficient "information" required by article 15(1).

Furthermore, I respectfully submit that this Complaint by itself constitutes "a reasonable basis to proceed with an investigation" under Rome Statute article 15(3). Hence, I also respectfully request that you formally "submit to the Pre-Trial Chamber a request for authorization of an investigation" of the Accused under Rome Statute article 15(3) at this time. Please inform me at your earliest convenience about the status and disposition of my two requests set forth immediately above.

Based upon your extensive human rights work in Argentina, you know full well from direct personal experience the terrors and the horrors of enforced disappearances of persons and their consequent torture. According to reputable news media sources here in the United States, about 100 human beings have been subjected to enforced disappearances and subsequent torture by the Accused. We still have no accounting for these Victims. In other words, many of these Victims of enforced disappearances and torture by the Accused could still be alive today. Their very lives are at stake right now as we communicate. You could very well save some of their lives by publicly stating that you are opening an investigation of my Complaint.

As for those Victims of enforced disappearances by the Accused who have died, your opening an investigation of my Complaint is the only means by which we might be able to obtain some explanation and accounting for their whereabouts and the location of their remains in order to communicate this critical information to their next-of-kin and loved-ones. Based upon your extensive experience combating enforced disappearances of persons and their consequent torture in Argentina, you know full well how important that objective is. The next-of-kin, loved-ones, and friends of "disappeared" human beings can never benefit

from psychological “closure” unless and until there is an accounting for the fates, if not the remains, of the Victims. In part that is precisely why the Accused’s enforced disappearances of about 100 human beings constitutes ongoing criminal activity that continues as of today and will continue until the fates of all their Victims have been officially determined by you opening an investigation into my Complaint.

Let us mutually suppose that during the so-called “dirty war” in Argentina the International Criminal Court had been in existence. I submit that as an Argentinean human rights lawyer you would have moved heaven and earth and done everything in your power to get the I.C.C. and its Prosecutor to assume jurisdiction over the Argentine Junta in order to terminate and prosecute their enforced disappearances and torture of your fellow Argentinean citizens. I would have done the same. Unfortunately, the I.C.C. did not exist during those darkest of days for the Argentine Republic when we could have so acted. But today as the I.C.C. Prosecutor, you have both the opportunity and the legal power to do something to rectify this mass and total human rights annihilation, and to resolve and to terminate and to prosecute the “widespread” and “systematic” policy and practice of enforced disappearances and consequent torture of about 100 human beings by the Accused.

Unfortunately, the new Obama administration in the United States has made it perfectly clear by means of public statements by President Obama and his Attorney General Eric Holder that they are not going to open any criminal investigation of any of the Accused for these aforementioned Crimes against Humanity. Hence an I.C.C. “case” against the Accused is “admissible” under Rome Statute article 1 (complementarity) and article 17. As of right now you and the I.C.C. Judges are the only people in the entire world who can bring some degree of Justice, Closure, and Healing into this dire, tragic, and deplorable situation for the lives and well-being of about one hundred “disappeared” and tortured human beings as well as for their loved-ones and next-of-kin, who are also Victims of the Accused’s Crimes against Humanity. On behalf of them all, as a fellow human rights lawyer I implore you to open an investigation into my Complaint and to issue a public statement to that effect.

Also, most regretfully, the new Obama administration has publicly stated that it will continue the Accused’s policy and practice of “extraordinary rendition,” which is really their euphemism for enforced disappearances of human beings and consequent torture by other States. Hence the Highest Level Officials of the Obama administration fully intend to commit their own Crimes against Humanity under the I.C.C. Rome Statute – unless you stop them! Your opening an investigation of my Complaint will undoubtedly deter the Obama administration from engaging in any more “extraordinary renditions” — enforced disappearances of human beings and having them tortured by other States. Indeed your opening of an investigation into my Complaint might encourage the Obama administration to terminate its criminal “extraordinary rendition” program immediately and thoroughly by means of issuing a public statement to that effect. In other words, your opening an investigation of my Complaint could very well save the lives of a large number of additional human beings who otherwise will be subjected by the Obama administration to the Rome Statute Crimes against Humanity of enforced disappearances of persons and their consequent torture by other States, *inter alia*.

The lives and well-being of countless human beings are now at risk, hanging in the balance, waiting for you to act promptly, effectively, and immediately to save them from becoming Victims of Rome Statute Crimes against Humanity perpetrated by the Highest Level Officials of the Obama administration as successors-in-law to the Accused by opening an investigation of my Complaint. Otherwise, I shall be forced to file with you and the I.C.C. a follow-up Complaint

against the Highest Level Officials of the Obama administration. I certainly hope it will not come to that. Please make it so.

Finally, for reasons more fully explained in the Conclusion to my Complaint, I respectfully request that you obtain I.C.C. arrest warrants for the Accused in accordance with Rome Statute articles 58(1)(a), article 58(1)(b)(i), article 58(1)(b)(ii), and article 58(1)(b)(iii). The sooner, the better for all humankind.

I respectfully request that you schedule a meeting with me at our earliest mutual convenience in order to discuss this Complaint. I look forward to hearing from you at your earliest convenience. This transmission letter is an integral part of my Complaint against the Accused and is hereby incorporated by reference into the attached Complaint dated as of today as well.

Please accept, Sir, the assurance of my highest consideration.

HEALTH AND SAFETY CODE

SECTION 24170-24179.5

<http://www.leginfo.ca.gov/cgi-bin/displaycode?section=hsc&group=24001-25000&file=24170-24179.5>

24170. This chapter shall be known and may be cited as the Protection of Human Subjects in Medical Experimentation Act.

24171. The Legislature hereby finds and declares that medical experimentation on human subjects is vital for the benefit of mankind, however such experimentation shall be undertaken with due respect to the preciousness of human life and the right of individuals to determine what is done to their own bodies.

The Legislature further finds and declares that:

(a) The Nuremberg Code of Ethics in Medical Research was developed after the trial of Nazi war criminals for unethical use of persons in medical experiments; subsequently, the Declaration of Helsinki additionally established recommendations guiding doctors in experimentation involving human subjects.

(b) Neither the Nuremberg Code nor the Declaration of Helsinki are codified under law and are, therefore, unenforceable.

(c) It is necessary that medical experimentation be done in such a way as to protect the rights of the human subjects involved.

(d) There is, and will continue to be, a growing need for protection for citizens of the state from unauthorized, needless, hazardous, or negligently performed medical experiments on human beings.

It is, therefore, the intent of the Legislature, in the enacting of this chapter, to provide minimum statutory protection for the citizens of this state with regard to human experimentation and to provide penalties for those who violate such provisions.

24174. As used in this chapter, "medical experiment" means:

(a) The severance or penetration or damaging of tissues of a human subject or the use of a drug or device, as defined in Section 109920 or 109925, electromagnetic radiation, heat or cold, or a biological substance or organism, in or upon a human subject in the practice or research of medicine in a manner not reasonably related to maintaining or improving the health of the subject or otherwise directly benefiting the subject.

(b) The investigational use of a drug or device as provided in Sections 111590 and 111595.

(c) Withholding medical treatment from a human subject for any purpose other than maintenance or improvement of the health of the subject.

24175. (a) Except as otherwise provided in this section, no person shall be subjected to any medical experiment unless the informed consent of such person is obtained.

24176. (a) Any person who is primarily responsible for conduct of a medical experiment and who negligently allows the experiment to be conducted without a subject's informed consent, as provided in this chapter, shall be liable to the subject in an amount not to exceed ten thousand dollars (\$10,000), as determined by the court. The minimum amount of damages awarded shall be five hundred dollars (\$500).

(b) Any person who is primarily responsible for the conduct of a medical experiment and who willfully fails to obtain the subject's informed consent, as provided in this chapter, shall be liable to the subject in an amount not to exceed twenty-five thousand dollars (\$25,000) as determined by the court. The minimum amount of damages awarded shall be one thousand dollars (\$1,000).

(c) Any person who is primarily responsible for the conduct of a medical experiment and who willfully fails to obtain the subject's informed consent, as provided in this chapter, and thereby exposes a subject to a known substantial risk of serious injury, either bodily harm or psychological harm, shall be guilty of a misdemeanor punishable by imprisonment in the county jail for a period not to exceed one year or a fine of fifty thousand dollars (\$50,000), or both.

(d) Any representative or employee of a pharmaceutical company, who is directly responsible for contracting with another person for the conduct of a medical experiment, and who has knowledge of risks or hazards with respect to the experiment, and who willfully withholds information of the risks and hazards from the person contracting for the conduct of the medical experiment, and thereby exposes a subject to substantial risk of serious injury, either bodily harm or psychological harm, shall be guilty of a misdemeanor punishable by imprisonment in the county jail for a period not to exceed one year or a fine of fifty thousand dollars (\$50,000), or both.

(e) Each and every medical experiment performed in violation of any provision of this chapter is a separate and actionable offense.

(f) Any attempted or purported waiver of the rights guaranteed, or requirements prescribed by this chapter, whether by a subject or by a subject's conservator or guardian, or other representative, as specified in Section 24175, is void.

(g) Nothing in this section shall be construed to limit or expand the right of an injured subject to recover damages under any other applicable law.

ABORTED BABIES IN VACCINES – ABORTED ALIVE

<http://www.ncbi.nlm.nih.gov/m/pubmed/25803132/>

The new 2015 cell line for vaccines, WALVAX 2 is taken from the lung tissue of a 3 month gestation female who was ultimately selected from among 9 aborted babies. The scientists noted how they followed specific guidelines to mimic WI-38 and MRC-5 in selecting the aborted babies, ranging from 2-4 months gestation. They further noted how they induced labor using a “water bag” abortion to shorten the delivery time and prevent the death of the fetus to ensure live intact organs which were immediately sent to the labs for cell preparation.

<http://www.ncbi.nlm.nih.gov/m/pubmed/25803132/>

What does this mean? The baby is born alive, and then they dismantle the baby after to ensure the cells remain preserved.

Do you understand what cannibalism is? Do you recall mad cow disease? Mad cow disease was the result of farmers, grinding up sick DEAD cows and then using those dead cows as feed for the healthy cows. This is what happens when you ingest or INJECT particles of dead human into a living human. Mad cow was a neurological disorder. Autism, sensory processing, ADD, ADHD

are ALL neurological disorders. You can't not inject dead cells from babies into healthy babies and not expect there to be a genetic response. Also, it is scientifically impossible to filter out ALL the cells. This is why it is specifically recognized on the ingredient list of vaccines inserts as MRC-5, WI-38 and now WALVAX 2.

I hardly think you truly understand. Are you defending the use of aborted fetus cells? That somehow the vaccines are ok because they are ONLY used in the manufacturing process? Even if it means that poor aborted baby is induced alive and then ripped apart!? It's a DARK dark act that has no business in healthy children. Consider the fear hormone that is released into the aborted baby's cells, which is then released into healthy babies. If you didn't know, now you are fully aware at how BARBARIC this process is? Is there a special filter they use that ensures all aborted fetus cells are removed? I highly doubt it since simple things like pharmaceuticals and fluoride can't be removed from our own water supply with even the most high tech water filters. Nothing is 100% guarantee with filters. Aborted fetus cells are NO different.

It is a foundation to show/prove in writing (evidence) and establish your religious belief and opposition to vaccines. They can accept it or ignore it (most likely). It is one avenue to assert legal rights and possible sue in the future if injury happens (and we're all under coercion and duress, which is actionable in court). It is part of my effort. Editorial: Taking a Stand for Choice by Edda West, President
<http://www.cafepeyote.com/webmail/src/webmail.php> Page 5

In 2005, the UN Educational, Scientific and Cultural Organization, UNESCO, addressed this issue, adopting the Universal Declaration on Bioethics and Human Rights on the consensus of 193 countries. The participating countries hoped this Declaration, like the Universal Declaration of Human Rights before it, would become a set of guiding principles. On the issue of consent, the Declaration states that "any preventive...medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information." It further notes that the "sole interest of science or society" does not prevail. This pronouncement is an extension of the medical oath, attributed to Hippocrates 2500 years ago, that doctors must work for the good of their patients and never do harm. Abbreviated as the "first do no harm" principle, this credo embodies the precautionary principle in medicine, clearly placing the interests of individual patients above the interests of the collective or the "herd." This precautionary principle in medicine leads directly to the view that vaccination policies must be recommended, not coerced. The doctor-patient relationship depends first and foremost on trust, and coercion undermines it. When the doctor-patient relationship is based on coercion, trust is a casualty, and doctors then serve the state, and by extension the society, above their individual patients. This is a slippery slope, where civilized medicine has too often derailed in the past.

PEANUT OIL ALLERGIES

Adjuvant 65 - Peanut oil - 1978 Patent US 4,069,313
Inventors: Woodhour; Allen F., Hilleman; Maurice R.
Assignee: Merck & Co., Inc. (Rahway, NJ)
Appl. No.: 05/674,360 - Filed: April 7, 1976

EXAMPLE 5

Preparation of Peanut oil adjuvant using pure isomannide monooleate at 10, 6, 4 and 2% and pure aluminum monostearate at 4%

	Percent by Volume			
Peanut Oil	86	90	92	94
Pure aluminum monostearate	4	4	4	4
Pure isomannide monooleate	10	6	4	2

Sterile isomannide monooleate is added to sterile peanut oil and thoroughly mixed. The bivalent oil-isomannide monooleate vehicle is added to pure sterile

PEANUT ALLERGIES?

In spite of vaccine manufacturers denying its existence, Adjuvant 65, consists of 86 to 94% PEANUT OIL.

Vaccines are DESIGNED to prompt the body to produce anti-bodies to foreign agents, so it only stands to reason that if peanut oil is injected, some will develop anti-bodies to peanuts.

Here's the patent: <http://patents.com/us-4069313.html>

The full downloadable pdf is here: <https://www.google.ca/url...>

Dr. Woodhour is assistant director of the department of virus diseases in the Merck laboratories. Dr. Stim is now a research associate at Yale University. Their patent is No. 3,149,036.

<http://www.nytimes.com/.../peanut-oil-used-in-a-new-vaccine.h...>

As Merck explains it, the antigens are contained in small particles of water, which are surrounded by the oil. When injected into the body, the emulsion is distributed along the muscle fibers. The antigens are released as the peanut oil is absorbed by the body's tissues.

<http://www.truthlibrary.info/.../1984-peanut-oil-used-in-new.../>

Phylaxis, a word seldom used, stands in the Greek for protection. Anaphylaxis will thus stand for the opposite. Anaphylaxis, from its Greek etymological source, therefore means that state of an organism in which it is rendered hypersensitive, instead of being protected.

The first injection, instead of protecting the organism, renders it more fragile and more susceptible. This is anaphylaxis.

<http://www.nobelprize.org/.../laurea.../1913/richtet-lecture.html>

Many children with autism have severe allergies, including life-threatening reactions to peanuts. Likewise, many children with peanut allergies are diagnosed with autism spectrum disorders, including attention deficits, pervasive developmental disorders, Asperger syndrome and full-blown autism.

<https://ddrblog.wordpress.com/tag/adjuvant-65-4/>

A comparison was made of the antibody response and subjective reactions to zonally-purified influenza vaccine in aqueous suspension and in peanut oil adjuvant 65-4.

<http://europepmc.org/articles/PMC2130368/>

Studies were conducted in mice, hamsters, sheep, and two species of nonhuman primates which demonstrate the adjuvant activity of a new metabolizable lipid emulsion with marginally immunogenic doses of Formalin-inactivated viral vaccines. The lipid base consists of highly refined peanut oil emulsified in aqueous vaccines with glycerol and lecithin.

<http://www.ncbi.nlm.nih.gov/pmc/articles/PMC551041/>

An inactivated avian influenza vaccine formulated from peanut oil induced protection against morbidity and death when vaccinated chickens were challenged with a virulent isolate of avian influenza virus.

<http://www.ncbi.nlm.nih.gov/pubmed/8363505>

What peanuts have in common with vaccines is something that very few healthcare consumers and medical doctors may be aware of: Peanut oil is a hidden and non-stated ingredient in the manufacture of children's vaccines.

<http://vactruth.com/.../non-disclosed-hyper-allergenic-vacci.../>

A stable water in oil emulsion can be produced by using metabolizable peanut oil with arlacel. When mycobacteria are added, a potent emulsified oil adjuvant is obtained which increases the immune response to BSA and to influenza vaccine.

The biggest issue with the use of adjuvants for human vaccines, particularly routine childhood vaccines, is the toxicity and adverse side-effects of most of the adjuvant formulations. At present the choice of adjuvants for human vaccination reflects a compromise between a requirement for adjuvanticity and an acceptable low level of side-effects.

http://barbfeick.com/vaccinati.../allergy/601-its_in_there.htm

Before 1900, reactions to peanuts were unheard of. Today almost a 1.5 million children in this country are allergic to peanuts.

Reactions to peanuts are not just another allergy. Peanut allergy has suddenly emerged as the #1 cause of death from food reactions, being in a category of allergens able to cause anaphylaxis.

Von Pirquet recognized that vaccines had 2 primary effects: immunity and hypersensitivity. He said they were inseparable: the one was the price of the other.

Many doctors in the early 1900s were dead set against vaccines for this precise reason. The advertised benefit was not proven to be worth the risk.

Foreign protein in the blood, of course, is a universal trigger for allergic reaction, not just in man but in all animals.

Food anaphylaxis is altogether different. This sudden, violent reaction requires an initial sensitization involving injection of some sort, followed by a later ingestion of the sensitized food. Get the shot, then later eat the food.

<http://www.thedoctorwithin.com/.../vaccines-and-the-peanut-a.../>

Rate of Childhood Peanut Allergies More Than Triples

<http://www.ageofautism.com/.../rate-of-childhood-peanut-aller...>

Oil in water vaccine adjuvants have always been controversial because they stimulate an abnormally strong immune response that may lead to immune disorders.

<http://www.thevaccinereaction.org/.../mercks-peanut-oil-adju.../>

Peanut oil is not listed in the ingredients list of vaccines for a variety of reasons, including the manufacturers claiming its as a "trade secret". Countries where the adjuvant is not peanut oil, for example - In Israel, where the preferred adjuvant is sesame oil, find that peanut allergies are a very, very rare occurrence.

TMP - 20 Fast Facts About Vaccines — by T. Matthew Phillips, Esq.

1. Under American law, it is legally impossible to design a defective vaccine.
2. In 2011, the Supreme Court declared that all vaccines are unavoidably unsafe.
3. Vaccine ingredients kill human gut microbes that regulate the immune system.
4. No vaccine comes with an immunization guarantee.
5. No vaccine is ever safety-tested in combination with other vaccines.
6. There are no vaccine safety studies that compare vaccinated versus non-vaccinated persons.
7. When vaccines fail to provide immunization, medical science is never able to explain why.
8. When vaccines kill or injure, medical science is never able to explain why.
9. Vaccine injured persons cannot sue vaccine makers; no other American industry enjoys immunity from liability for selling unsafe products – that are known to kill and injure.
10. Over the past ten years, the number of American children who died from the MMR vaccine far outpaces the number who died from measles, mumps and Rubella combined.
11. The MMR vaccine is not given to infants, (*i.e.*, newborn through 12 months), because it is considered unsafe.
12. The MMR vaccine comes in only one “size,” (*i.e.*, volume of liquid in the syringe); children receive the same dosage as adults.
13. Persons vaccinated for measles can nevertheless develop a full-blown case of measles as a result of the vaccination.
14. Persons vaccinated for measles can nevertheless develop a full-blown case of measles as a result of contact with persons infected with the measles virus.
15. Persons vaccinated for measles can “shed” the measles virus and infect others for approx. 28 days after vaccination; those recently vaccinated for measles *must* be quarantined for 28 days!

16. Measles is now a disease of vaccinated persons; modernly, in all measles outbreaks, (including Disneyland 2015), the majority of those afflicted were already vaccinated for measles.
17. Once a person has had a full-blown case of “wild” measles, (*i.e.*, from naturally occurring viral strains), he or she naturally acquires lifetime immunity to the measles virus.
18. Once a person has had a full-blown case of “laboratory” measles, (*i.e.*, from viral strains attenuated in vitro), he or she does NOT acquire lifetime immunity to the measles virus.
19. Persons inoculated with “laboratory” measles remain forever susceptible to “wild” measles (and other “laboratory” strains).
20. All booster shots are a hoax – you can’t “boost” immunity; it is either achieved or it isn’t.

"I regret that my coauthors and I omitted statistically significant information in our 2004 article published in the journal Pediatrics. The omitted data suggested that African American males who received the MMR vaccine before age 36 months were at increased risk for autism. Decisions were made regarding which findings to report after the data were collected, and I believe that the final study protocol was not followed."

Rep. Posey has recently entered into the Congressional Record the full compilation of evidence provided by Dr. Thompson.

6 CASES OF OUTBREAKS – SAN DIEGO

Perfect one-sided article, with all the keywords. One thing is "the science" and the other "the evidence." In the following link you will find 6 cases of outbreaks, 3 in San Diego, CA in 2010

and three in other states in 2016. A total of approximately 81 persons were infected. 100% OF THEM WERE VACCINATED, 0% OF THERE WERE NOT. One can only come to one logical/rational explanation for that. Mine is as follows:

1. Vaccines don't work
2. Unvaccinated Children do not cause outbreaks
3. People that get vaccinated are more prone to be the ones getting infected, which means that
4. Vaccinated people ARE THE ONES CAUSING THE OUTBREAKS

See http://www.cafepeyote.com/files/Vaccinated_Children_Outbreaks_Flyer.pdf

If I receive no direct responses to my question from any or all of you it only means that you agree with me, and either you are a part of the problem or part of the solution. History will judge you either way.

TRAVIS – CHULA VISTA SCHOOL DISTRICT DEFENSE

Ricardo, please consider this California Constitutional Mandate: "The people have the right to instruct their representatives..." <https://casetext.com/case/city-of-long-beach-v-bozek?passage=bNc0X060ib8sfuRWVo> R w...additionally, please see CITY OF LONG BEACH V. BOZEK Supreme Court of California. 31 Cal.3d 527 (Cal. 1982). I think you should use a Writ of Mandamus on them applying this California Constitutional Section.

US CONSTITUTION – PRIOR DOCUMENTS:

Which country has the oldest written constitution?

Goodlatte says the **U.S.** constitution is the "oldest written constitution still in use today." He was referring to national constitutions. Some scholars note that the United Kingdom and **San Marino** have some written governing documents still in effect that predate the 1789 enactment of the **U.S.** Constitution.

Vitamin K Injection...

The prescribing information on the Vitamin K shot states that fatalities are an adverse reaction according to the Merck pharmaceutical package insert. <http://fdb.rxlist.com/drugs/drug-9003-Aqua-Mephyton+Inj.aspx?drugid=9003&drugname=Aqua-Mephyton+Inj>

"The injectable form of vitamin K can cause severe (sometimes fatal) allergic reactions when given by injection into a muscle or vein. Seek immediate medical attention if you experience symptoms of an allergic reaction such as rash, itching, swelling, dizziness, or trouble breathing." Potential exists for the newborn to experience hypersensitivity to any component of this medication.

Each milliliter contains: Phytonadione 2 mg or 10 mg Inactive ingredients:
Polyoxyethylated fatty acid derivative 70 mg
Dextrose..... 37.5 mg Water for Injection, q.s.
..... 1 mL Added as preservative: Benzyl alcohol 0.9%

USC 42 - CIVIL RIGHTS – VACCINE RIGHTS – TITLE VII CIVIL RIGHTS.

Some items for consideration for anti-vaxx lawsuits:

42 U.S. Code § 1983 - Civil action for deprivation of rights

Every person who, under color of any statute, ordinance, regulation, custom, or usage, of any State or Territory or the District of Columbia, subjects, or causes to be subjected, any citizen of the United States or other person within the jurisdiction thereof to the deprivation of any rights, privileges, or immunities secured by the Constitution and laws, shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress, except that in any action brought against a judicial officer for an act or omission taken in such officer's judicial capacity, injunctive relief shall not be granted unless a declaratory decree was violated or declaratory relief was unavailable. For the purposes of this section, any Act of Congress applicable exclusively to the District of Columbia shall be considered to be a statute of the District of Columbia.

42 U.S. Code § 2000bb - Congressional findings and declaration of purposes

(a) Findings The Congress finds that—

- (1) the framers of the Constitution, recognizing free exercise of religion as an unalienable right, secured its protection in the First Amendment to the Constitution;
- (2) laws “neutral” toward religion may burden religious exercise as surely as laws intended to interfere with religious exercise;
- (3) governments should not substantially burden religious exercise without compelling justification;

TERRORISM

18 U.S. Code § 2331 - Definitions

(1) the term “international terrorism” means activities that—

(A)

involve violent acts or acts dangerous to human life that are a violation of the criminal laws of the United States or of any State, or that would be a criminal violation if committed within the jurisdiction of the United States or of any State;

(B) appear to be intended—

(i)

to intimidate or coerce a civilian population;

(ii)

to influence the policy of a government by intimidation or coercion; or

(iii)

to affect the conduct of a government by mass destruction, assassination, or kidnapping; and

(C)

occur primarily outside the territorial jurisdiction of the United States, or transcend national boundaries in terms of the means by which they are accomplished, the persons they appear intended to intimidate or coerce, or the locale in which their perpetrators operate or seek asylum;

(2)

the term “national of the United States” has the meaning given such term in section 101(a)(22) of the Immigration and Nationality Act;

(3)

the term “person” means any individual or entity capable of holding a legal or beneficial interest in property;

(4) in *Employment Division v. Smith*, [494 U.S. 872 \(1990\)](#) the Supreme Court virtually eliminated the requirement that the government justify burdens on religious exercise imposed by laws neutral toward religion; and

(5) the compelling interest test as set forth in prior Federal court rulings is a workable test for striking sensible balances between religious liberty and competing prior governmental interests.

(b) Purposes The purposes of this chapter are—

- (1) to restore the compelling interest test as set forth in *Sherbert v. Verner*, [374 U.S. 398 \(1963\)](#) and *Wisconsin v. Yoder*, [406 U.S. 205 \(1972\)](#) and to guarantee its application in all cases where free exercise of religion is substantially burdened; and
- (2) to provide a claim or defense to persons whose religious exercise is substantially burdened by government.

42 U.S. Code § 2000bb–1 - Free exercise of religion protected

(a) In general

Government shall not substantially burden a person's exercise of religion even if the burden results from a rule of general applicability, except as provided in subsection (b).

(b) Exception Government may substantially burden a person's exercise of religion only if it demonstrates that application of the burden to the person—

- (1) is in furtherance of a compelling governmental interest; and
- (2) is the least restrictive means of furthering that compelling governmental interest.

(c) Judicial relief

A person whose religious exercise has been burdened in violation of this section may assert that violation as a claim or defense in a judicial proceeding and obtain appropriate relief against a government. Standing to assert a claim or defense under this section shall be governed by the general rules of standing under article III of the Constitution.

42 U.S. Code § 2000bb - Congressional findings and declaration of purposes

(a) Findings The Congress finds that—

- (1) the framers of the Constitution, recognizing free exercise of religion as an unalienable right, secured its protection in the First Amendment to the Constitution;
- (2) laws “neutral” toward religion may burden religious exercise as surely as laws intended to interfere with religious exercise;
- (3) governments should not substantially burden religious exercise without compelling justification;
- (4) in *Employment Division v. Smith*, [494 U.S. 872 \(1990\)](#) the Supreme Court virtually eliminated the requirement that the government justify burdens on religious exercise imposed by laws neutral toward religion; and
- (5) the compelling interest test as set forth in prior Federal court rulings is a workable test for striking sensible balances between religious liberty and competing prior governmental interests.

(b) Purposes The purposes of this chapter are—

- (1) to restore the compelling interest test as set forth in *Sherbert v. Verner*, [374 U.S. 398 \(1963\)](#) and *Wisconsin v. Yoder*, [406 U.S. 205 \(1972\)](#) and to guarantee its application in all cases where free exercise of religion is substantially burdened; and
- (2) to provide a claim or defense to persons whose religious exercise is substantially burdened by government.

SEC. 3. (a) The people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good.

42 U.S. Code § 1981 - Equal rights under the law

(a) STATEMENT OF EQUAL RIGHTS

All persons within the jurisdiction of the United States shall have the same right in every State and Territory to make and enforce contracts, to sue, be parties, give evidence, and to the full and equal benefit of all laws and proceedings for the security of persons and property as is enjoyed by white citizens, and shall be subject to like punishment, pains, penalties, taxes, licenses, and exactions of every kind, and to no other.

(c) PROTECTION AGAINST IMPAIRMENT

The rights protected by this section are protected against impairment by nongovernmental discrimination and impairment under color of State law.

42 U.S. Code § 1983 - Civil action for deprivation of rights

Every person who, under color of any statute, ordinance, regulation, custom, or usage, of any State or Territory or the District of Columbia, subjects, or causes to be subjected, any citizen of the United States or other person within the jurisdiction thereof to the deprivation of any rights, privileges, or immunities secured by the Constitution and laws, shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress, except that in any action brought against a judicial officer for an act or omission taken in such officer's judicial capacity, injunctive relief shall not be granted unless a declaratory decree was violated or declaratory relief was unavailable. GOVERNMENT EMPLOYEES LOSS OF IMMUNITY:

IN January of this year the 9 th Circuit court of Appeals Ruled Against CPS! The decision stated that Social Workers can and did lose Qualified Immunity. This is now precedent in the 9th. Following is a court clerk written summary of Judge Trot in the opinion, Affirming the lower court that Social workers can and did lose Immunity:
United States Court of Appeals, Ninth Circuit.

PRESLIE HARDWICK, Plaintiff-Appellee, v. COUNTY OF ORANGE, Defendant,
MARCIA VREEKEN; ELAINE WILKINS; THE ESTATE OF HELEN DWOJAK,
Defendants-Appellants.

No. 15-55563

Decided: January 03, 2017

Before: Stephen S. Trott, John B. Owens, and Michelle T. Friedland,
Circuit Judges. COUNSEL, Pancy Lin (argued) and Norman J. Watkins, Lynberg
& Watkins, Orange, California, for Defendants-Appellants. Dennis Ingols
(argued) and Robert R. Powell, Law Offices of Robert R. Powell, San Jose,
California, for Plaintiff-Appellee.

OPINION

SUMMARY *

Civil Rights

The panel affirmed the district court's denial, on summary judgment, of absolute and qualified immunity to social workers who plaintiff alleged maliciously used perjured testimony and fabricated evidence to secure plaintiff's removal from her mother, and that this abuse of state power violated her Fourth and Fourteenth Amendment constitutional rights to her familial relationship with her mother.

The panel held that the social workers were not entitled to absolute immunity from claims that they maliciously used perjured testimony and fabricated evidence to secure plaintiff's removal. The panel held that plaintiff's complaint targeted conduct well outside of the social workers' legitimate role as quasi-prosecutorial advocates in presenting the case.

The panel held that defendants' case for qualified immunity was not supported by the law or the record. The panel determined that plaintiff produced more than sufficient admissible evidence to create a genuine dispute as to whether her removal from her mother's custody violated her constitutional rights. The panel further stated that it could not conceive of circumstances in which social workers would not know and understand that they could not use criminal behavior in any court setting to interfere with a person's fundamental constitutional liberty interest.

Industry and Medical Trade Proponents of the Bill

The lobbying effort in support for SB277 was led by Vaccinate California and [California Immunization Coalition](#), a project of the [Immunization Action Coalition](#) that is funded by [Astra Zeneca](#), [BioCSL](#), [Merck](#), [Novartis Vaccines](#), [Pfizer](#) and [Sanofi Pasteur and CDC](#). The American Academy of Pediatrics and California Medical Association, which are also funded by pharmaceutical companies, were among the bill's supporters, as well as [Biocom](#) that represents Pfizer, Merck, GSK, Novartis, Sanofi, Monsanto and Kaiser Permanente.

Other proponents of SB277 included a long list of medical trade and government employee associations that receive state and industry funding, as well as the [Secular Coalition for America](#), which is a 501C4 anti-religious belief lobbying organization with 50 state chapters. The Coalition recently issued a press release in Oregon stating the Secular Coalition “played a key role in passage of the bill” in California. A June 2015 article in the [Sacramento Bee](#) revealed that “drug companies donated millions to California legislators before vaccine debate.”

Simply stated, before you can make an *“informed decision”* you need to have the critical information. The failure of government and industry scientists to perform the same type of

long-term safety testing of vaccines, as is done with EVERY other pharmaceutical drug, means you cannot give **“informed consent”** to ANY VACCINE.

Another great argument is that under the Food, Drugs, and Cosmetics Act, no drug can be approved unless it is proven **“safe and effective.”** No such showing has ever been made about vaccines, thus their use is not permitted. No agency has the authority to waive this requirement.

<https://www.naturalnews.com/2017-09-13-cdc-funded-study-confirms-flu-shots-linked-to-spontaneous-abortions-vaccine-experts-rush-to-explain-away-the-findings.html>

ADDITIONAL: IMPORTANT

“You know that study recently from the CDC that concludes the there is a 7 X increase in miscarriage from the flu vaccine?

Stephanie Seneff sent us the study details. Turns out that that the data bank the CDC used was the Kaiser Permanente VSD data bank. That is where the medical care groups report their incidents of vaccine-associated injury. They are not reporting to VAERS. Their data indicated that there was at the most circa 900 miscarriage reports and after vetting them they settled on 600 miscarriage reports for the study.

So, Dr. Paul King, with a brilliant thought, checked VAERS for the same time period, etc and found **NO MISCARRIAGE reports to VAERS**, yet 900 to Kaiser's VSD. So, the first conclusion is that these medical care consortiums are not reporting vaccine-associated injury to VAERS as they are required by law in the NVIC program law. And this is just for the pregnant women. This means that the public is not getting the real data. Moreso, independent researchers are not allowed to access the VSD. The Geier was allowed limitedly at one point under the supervision of a guard.

This means also that this CDC study verifies the vast underreporting of VAERS. But as Dr. King noted...our taxpayer dollars supporting the CDC facilitates access by the CDC to this VSD...obviously as demonstrated by the study's data sourcing but independent researchers can't access it, though tax payers pay the CDC for that access.

Can you imagine if this alternate, clandestine data bank that our govt. pays for access to...is happening with all the vaccine-associated injuries...not only pregnant women and miscarriages?”

DEPOPULATION CHEMICAL IN VACCINES

VITAMIN C FOR VACCINE REACTIONS

High dose ascorbate can often effectively countervail the extreme levels of inflammation and associated oxidation occurring as a response to vaccination.

Since this is an emergency situation, I would recommend intravenous vitamin C along with glutathione infusions. The following is the IV Vitamin C treatment protocol for HPV/Gardasil victims, but this methodology is applicable for any vaccine as the immune responses are very much comparable.

<http://sanevax.org/treatment-manual-for-hpv-vaccine-injured/>

Toxins are typically neutralized with high dose vitamin C, as evidenced by the work of Dr. Thomas Levy. IV C was shown to cure encephalitis.

<http://www.whale.to/v/encephalitis.html>

--

To tag o to what Tom has said... high dose omega 3 up to 9g a day has been shown to help calm brain inflammation and restore neurons (I have the citations at home). Also I would recommend extremely high doses of vitamin A and vitamin D. With my son we have used 200,000iu of Vitamin A x2days and 30,000iu of Vitamin D x2days (vitamin D is extremely important in curbing autoimmune disease and you need at least 2000iu per Dr Shoenfeld). We'll want to have a link for the worst case:

HHS ANNUAL REPORTING –

Here is the gist of what the Department of Health and Human Services should have been reporting on biennially to the US Congress for the past 30 years, and hasn't. This is straight out of the NCVIA, National Childhood Vaccine Injury Act, signed into law by President Reagan in 1986.

Arrange for a broad study of the risks to children associated with each vaccine set forth in the Vaccine Injury Table.

Establish guidelines, for

-the circumstances under which any such vaccine should not be administered,

-the circumstances under which administration of any such vaccine should be delayed beyond its usual time of administration, and

-the groups, categories, or characteristics of potential recipients of such vaccine who may be at significantly higher risk of major adverse reactions to such vaccine than the general population of potential recipients.

(Please read the pertinent notes further below)

Pneumococcal vaccine

? 0.125 milligram per dose (mg/dose)

Diphtheria-tetanus-acellular pertussis (DTaP) vaccine

? < 0.33 to < 0.625 mg/dose

***Haemophilus influenzae* type b (Hib) vaccine**

? 0.225 mg/dose

Hepatitis A vaccine (Hep A)

? 0.225 to 0.25 mg/dose (pediatrics)

? 0.45 to 0.5 mg/dose (adults)

Hepatitis B vaccine (Hep B)

? 0.225 to 0.5 mg/dose (pediatrics)

? 0.5 mg/dose (adults)

Hep A/Hep B vaccine

? 0.45 mg/dose

DTaP/inactivated polio/Hep B vaccine

? < 0.85 mg/dose

DTaP/inactivated polio/Hib vaccine

? 0.33 mg/dose

Human Papillomavirus (HPV) vaccine

? 0.5 mg/dose (Gardasil-9 and Cervarix [2 valent]);

? 0.225 mg/dose (Gardasil-4-valent)

Japanese Encephalitis (JE) vaccine

? 0.25 mg/dose

Meningococcal B vaccine

? 0.25 – 0.52 mg/dose

Td vaccine

? < 0.53 – 1.5 mg/dose

Tdap vaccine

? 0.33 – 0.39 mg/dose

The above aluminum adjuvant vaccine data comes from the website of the Children's Hospital of Philadelphia (CHOP), a notoriously pro-over-vaccination agenda pediatric hospital and clinic that is run by Paul Offit, the notoriously over-vaccination-promoting, academic pediatrician and multimillionaire (because he sold the marketing rights to his patented rotavirus vaccine to a major pharmaceutical corporation and is now considered the standard of well-baby care). The aluminum data above can be trusted as legitimate): <https://www.chop.edu/centers-programs/vaccine-education-center/vaccine-ingredients/aluminum>

In a 2 minute video that is viewable at the above link, Offit deceptively claims that intramuscularly -injected aluminum in vaccines is as safe as orally-in

VACCINES CAUSE AUTISM STUDIES – MMR - DUE TO FETAL TISSUE

1. "A study published in the **September 2014** volume of the Journal of Public Health and Epidemiology reveals a significant correlation between autism disorder (AD) and MMR, Varicella (chickenpox) and Hepatitis-A vaccines. **Dr. Deisher's team discovered that the fetal DNA levels ranged anywhere from 142ng – 2000ng per dose, way beyond the so-called "safe" level**".

"There are a large number of publications about the presence of HERV (human endogenous retrovirus – the only re-activatable endogenous retrovirus) and its association with childhood leukemia & lymphoma," noted Dr Deisher. "The MMR II and chickenpox vaccines and indeed ALL VACCINES that were **propagated or manufactured using the fetal cell line WI-38 are contaminated with this retrovirus**. <http://www.lifenews.com/2014/09/09/study-links-autism-to-vaccines-made-with-cells-from-aborted-babies/>

--- **Here is the complete Dr. Deisher's**

study: http://www.ms.academicjournals.org/article/article1409245960_Deisher%20et%20al.pdf

2. **In 2011 Helen Ratajczak**, a former senior scientist at a pharmaceutical firm published in the Journal of Immunotoxicology, "Theoretical aspects of autism: Causes--A review." **Researched articles from the 1943 to 2011 and found evidence that human DNA in vaccines may cause autism as spikes increased dramatically when aborted fetal DNA was added to vaccines.**

: "The MMR II vaccine is contaminated with human DNA from the cell line. This human DNA could be the cause of the spikes in incidence. **An additional increased spike in incidence of autism occurred in 1995 when the chicken pox vaccine was grown in human fetal tissue (Merck and Co., Inc., 2001; Breuer, 2003).**" <http://www.cbsnews.com/news/vaccines-and-autism-a-new-scientific-review/>

ALUMINUM IN BRAIN OF AUTISTIC CHILDREN
<https://vactruth.com/2017/12/05/aluminum-and-autism/>

ALUMINUM ADJUVANTS ARE MADE USING THIMEROSAL
Sherri Tenpenny - AVA

Aluminum Adjuvants ARE Made Using Thimerosal

I was researching how aluminum adjuvants are made, and I may have come across, in two separate textbooks (one published in 2000, one published in 2017) the biggest smoking gun of all: It appears that when aluminum adjuvants are made, thimerosal is one of the ingredients.

In either of these documents, search for "thimerosal" - you'll find this is added as part of the recipe: (see attached)

1% thimerosal = 10 mg/cc = 10,000 mcg/cc

final concentration of 0.01% = 0.1 mg/cc = 100 mcg/cc

What's important:

1. They were doing this before 2000
2. With the 2017 reference, they are STILL using this recipe, after Congress told them in 2004 to remove the thimerosal
3. I found this buried inside textbooks that NO ONE would bother to read!!!

Questions:

1. IF THE ALUMINUM CONTAINING vaccines were critically tested and found to contain even traces of thimerosal when the label says 'contains no preservatives' - what are the FALSE LABELING ramifications X EACH vial X many years?
2. IS this the reason they rolled over on taking out the mercury...because they knew it was being re-introduced through the aluminum? Is this why aluminum is loaded in the schedule?
3. What if the ALUMINUM ADJUVANTS were tested separately from simply testing ALUMINUM?
4. How can we test this?

The 2000 text, VACCINE ADJUVANTS - can't be uploaded either (it's only one chapter)

The 2017 textbook, VACCINE ADJUVANTS, methods and protocols - Christopher Fox MD, editor, published by Humana Press is - 12.5MB and I can't upload to this account. If you want the textbook, I can email the pdf to you

SAYER: can everyone here contribute \$\$ to you to upgrade this account for more storage - OR - can very old files be purged? This is really important and everyone needs to see it!

Lawyers and scientists: please chime in.....!!!!

CALIFORNIA EDUCATION CODE SECTION 200 – NO RELIGIOUS DISCRIMINATION

http://leginfo.ca.gov/faces/codes_displaySection.xhtml?sectionNum=200.&lawCode=EDC

CA Education Code Sections 51500, 51501, and 60044 prohibit schools from taking actions against children because of their creed, color, or national origin, and Section 35351 prohibits schools from forcing children to attend a particular school because of race, creed, or color. Creed is defined as "a set of beliefs that guides the actions of a person or group."

PRECAUTIONARY PRINCIPLE

The principle that the introduction of a new product or process whose ultimate effects are disputed or unknown should be resisted. It has mainly been used to prohibit the importation of genetically modified organisms and food.

"Promoting mandatory vaccination for entire populations with products that essentially rely on manufacturers' data for their general safety and efficacy is an evident breach of the precautionary principle and as such **becomes a forced medical experiment.**"

HOMOSEXUAL – HOMOSEXUALITY AS A RESULT OF VACCINATION

Stop vaccinating with vaccines that contain both male and female DNA fragments.

The direct evidence below, and as for the known short and long chain DNA fragment contamination that is as a fact left in the vaccines that have had the vaccine's antigen grown on what can be from both male and female aborted fetal cells, and that depending on which vaccine it is.

Epidemiologic and Molecular Relationship Between Vaccine Manufacture and Autism Spectrum Disorder Prevalence.

Deisher TA, Doan NV, Koyama K, Bwabye S.

CONCLUSION:

Vaccines manufactured in human fetal cell lines contain unacceptably high levels of fetal DNA fragment contaminants. The human genome naturally contains regions that are susceptible to double strand break formation and DNA insertional mutagenesis. The "Wakefield Scare" created a natural experiment that may demonstrate a causal relationship between fetal cell-line manufactured vaccines and ASD prevalence.

HUMAN FETAL CELLS

Q: Are aborted fetal cell lines used in vaccine manufacturing?

A: Yes, human fetal cell lines are used to culture some vaccines. You will see them listed on the CDC's Vaccine Excipient list as WI-38, MRC-5, HEK293.

Vaxelis just approved

Sharing my FB post - want to call attention to the unbelievable numbers. This insert proves that it is NOT ONE IN A MILLION!!!! The package insert table does not say what happens to these hundreds of thousands of babies a year who are not able to wake up, who cry for hours, who have severe vomiting, who refuse to eat, who are severely irritable. The control vaccine is Pentacel - a drug with a similar adverse reaction profile.

"The FDA just approved a new combined vaccine to be given to infants in 3 doses at 2,4 and 6 months. Manufacturer's insert:

<https://www.fda.gov/do.../BiologicsBloodVaccines/UCM629109.pdf>

Looking at the clinical studies on pgs 7 & 8, extrapolating the % of adverse reactions to an annual birth cohort of 4 million, that means after the 1st of 3 doses, 744,000 will cry for more than 1 hour, 144,000 will cry for more than 3 hours (a sign of encephalitis), 2,474,000 will be irritable, 984,000 will have moderate to severe irritability and 100,000 will be severely irritable. 280,000 will have moderate to severe lack of appetite and 20,000 will have severe lack of appetite. 600,000 will have moderate to severe somnolence and 60,000 will have severe somnolence. 524,000 will have vomiting, with 140,000 classified as moderate to severe and 16,000 classified as severe. SOUNDS LIKE CHILD ABUSE TO ME."

FLU VACCINE DANGERS

- 1. **Study Shows Vaccinated Children More Likely to Get Sick with Respiratory illness 440% more risk --after--- receiving the flu vaccine :**
- *"Increased Risk of Noninfluenza Respiratory Virus Infections Associated With Receipt of Inactivated Influenza Vaccine."*
"Those who were vaccinated with the trivalent influenza vaccine had a 4.40 increased risk of acute respiratory infection during the nine month follow-up, compared to those study participants who received the saline placebo." Not only was there no evidence the vaccine did anything to protect against confirmed influenza infection, it GREATLY INCREASED the incidence of non-influenza acute respiratory infections in those children who were vaccinated."

- 3. Vaccine-induced anti-HA2 antibodies promote virus fusion and enhance influenza virus respiratory disease.
<https://www.ncbi.nlm.nih.gov/pubmed/23986398>
- 4. **Flu Vaccines Found To Increase Heart Attack Risk (Several Studies)**
"For example, a concerning **study published in 2011 in the International Journal of Medicine** revealed a fact rarely addressed by conventional health authorities, or the mostly uncritical

mainstream media, namely: **flu vaccines result in inflammatory cardiovascular changes indicative of increased risk for serious heart-related events such as heart attack.**^[iii] "

Titled, "[Inflammation-related effects of adjuvant influenza A vaccination on platelet activation and cardiac autonomic function](#)," their study concluded:

Together with an inflammatory reaction, influenza A vaccine induced platelet activation and sympathovagal imbalance towards adrenergic predominance. Significant correlations were found between CRP [C-reactive protein] levels and HRV [heart rate variability] parameters, suggesting a pathophysiological link between inflammation and cardiac autonomic regulation. **The vaccine-related platelet activation and cardiac autonomic dysfunction may transiently increase the risk of cardiovascular events.**

NATION. <https://www.hrsa.gov/sites/default/files/vaccinecompensation/data/statisticsreport.pdf>

As of October 3, 2016, there had been 2,954 claims filed in the federal Vaccine Injury Compensation Program (VICP) for injuries and deaths following Influenza vaccination, including 109 deaths and 2,845 serious injuries.

Using the MedAlerts search engine, **as of June 30, 2016, there have been more than 128,194 reports of reactions, hospitalizations, injuries and deaths following influenza vaccinations made to the federal Vaccine Adverse Events Reporting System (VAERS), including 1,270 related deaths, 10,780 hospitalizations, and 2,377 related disabilities.**

(Please note that it is a well known and accepted statistic **that only 1 to 10 percent of vaccine injuries are ever reported to the Vaccine Adverse Event Reporting System-** VAERS- and FAR LESS even know there is a special court in the United States to file for compensation for injury or death.

MEASLES OUTBREAKS

Measles in the Vaccinated

- - [Czescik et al, Polish Journal of Microbiology, 2014](#): "...it is increasingly being considered that antibody-based definitions of vaccine success or failure may be incomplete."
- - [Rosen et al., Clinical Infectious Disease, 2014](#): In the NYC outbreak of 2011, "The index patient had 2 doses of measles-containing vaccine; of 88 contacts, 4 secondary patients were confirmed who had either 2 doses of measles-containing vaccine or a past positive measles IgG antibody."
- - [De Serres et al., Journal of Infectious Disease, 2013](#): Detailed analysis of Quebec outbreak revealed under-diagnosis and under-reporting of measles in fully vaccinated persons. The mean age of case patients was 15 years and incidence was highest in adolescents and 20% of them had received 2-doses of vaccine as recommended.
- - [Waijenborg et al, Journal of Infectious Diseases, 2013](#): "Children of mothers vaccinated against measles and, possibly, rubella have lower concentrations of maternal antibodies and lose protection by maternal antibodies at an earlier age than children of mothers in communities that oppose vaccination. This increases the risk of disease transmission in highly vaccinated populations."

THOMAS JEFFERSON MEDICAL TYRANNY

"The error seems not sufficiently eradicated, that the operations of the mind, as well as the acts of the body, are subject to the coercion of the laws. But our rulers can have authority over such natural rights only as we have submitted to them. The rights of conscience we never submitted, we could not submit. We are answerable for them to our God. The legitimate powers of government extend to such acts only as are injurious to others Was the government to prescribe to us our medicine and diet, our bodies would be in such keeping as our souls are now."

CDC AND ACIP -- CDC VACCINE COMMITTEE

I was listening to the SB 276 hearing, and saw that Jodi Hicks, who seems to have written SB 277, was at the Senate Health Hearing representing CA Academy of Family Physicians. I see that their PAC, Family Physicians PAC, is who helped Pan get elected! In fact, their mission is to get more physicians into the legislature and "educate legislators about family medicine". And, extort and coerce the public to buy/take their drugs!

<http://www.familydocs.org/advocacy/fppac/>

The AAFP advises the CDC on child *and* adult vaccines.

<https://www.cdc.gov/mmwr/preview/mmwrhtml/mm6332a3.htm>

Recommendations for routine use of vaccines in children, adolescents, and adults are developed by the Advisory Committee on Immunization Practices (ACIP). ACIP is chartered

as a federal advisory committee to provide expert external advice and guidance to the Director of the Centers for Disease Control and Prevention (CDC) on use of vaccines and related agents for the control of vaccine-preventable diseases in the civilian population of the United States. Recommendations for routine use of vaccines in children and adolescents are harmonized to the greatest extent possible with recommendations made by the American Academy of Pediatrics (AAP), the American Academy of Family Physicians (AAFP), and the American College of Obstetrics and Gynecology (ACOG). Recommendations for routine use of vaccines in adults are harmonized with recommendations of AAFP, ACOG, and the American College of Physicians (ACP). ACIP recommendations adopted by the CDC Director become agency guidelines on the date published in the Morbidity and Mortality Weekly Report (MMWR).

The CA Academy of Family Physicians is even responsible? for educating physicians about how to interpret SB 277. I can't find it but they are referenced in this study at the end, which I think was the basis for SB 276:

Experiences With Medical Exemptions After a Change in Vaccine Exemption Policy in California

<https://pediatrics.aappublications.org/content/142/5/e20181051>

So the CDC depends on the AAFP recommendations. And when the CDC tells a parent to consult with their doctor about contraindications, that advice is useless, because the doctor "has to follow CDC guidelines". So the two entities are just pointing fingers at each other about whose advice to follow for contraindications.

This is why the AAFP supported (or wrote) SB 277. They don't support PBEs or the patient's right to choose their own medical care:

"The American Academy of Family Physicians (AAFP) supports immunization of infants, children, adolescents and adults as defined by recommendations set forth in the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices and approved by the AAFP. With the exception of policies which allow for refusal due to a documented allergy or medical contraindication, the AAFP does not support immunization exemption policies." (2015 September BOD) (2016 COD)

THE ETHICS OF PLACEBO-CONTROL SAFETY STUDIES AVA PLACEBO AVA

Richard Moskowitz, M. D.

https://basecamp.com/2310126/projects/7904231/messages/86511724#comment_712810487

Regarding the ethics of placebo-control safety studies, CDC official Colleen Boyle reluctantly admitted under oath, in reply to direct questioning from Rep. William Posey (R.-FL), that the CDC, the FDA, the NIH, and the manufacturers themselves routinely avoid unvaccinated controls as a matter of policy, invoking a provision in the Helsinki Declaration, "Ethical Principles for Medical Research Involving Human Subjects," which states that "*The use of placebo is acceptable . . . where no proven intervention exists, or where . . . the use of placebos necessary to determine the safety or efficacy of an intervention, and the patients . . . will not be subject to any risk of serious or irreversible harm.*" Her point seemed to be that vaccines have already proven to be an effective intervention, so that placebo controls are not acceptable.

My discussion of this extremely lame argument is contained in my book, ***Vaccines: a Reappraisal***, Ch.3, "Vaccine Safety," pp. 37-39. Dr. Boyle's testimony was given before the House Oversight and Government Reform Committee, Nov. 29, 2012.

Richard Moskowitz, M. D.

Here is what I wrote:

The Helsinki Declaration and the Nuremberg Code.

The absence of unvaccinated controls in vaccine safety studies merits special attention, because it poses a further threat to the basic human right of informed consent that the policy of mandatory vaccination naturally seeks to override. Explaining in her Congressional testimony that it would be unethical to leave any children unprotected against vaccine-preventable diseases, Dr. Colleen Boyle invoked a provision in the original Declaration of Helsinki that allows for the use of placebo controls only if there is no treatment proven effective for the condition, and if the use of placebo, by withholding such treatment, would not impose a substantial risk of irreversible harm:

The use of placebo, or no treatment, is acceptable in studies where no proven intervention exists, or where for compelling and scientifically sound methodological reasons the use of placebo is necessary to determine the efficacy or safety of an intervention, and the patients who receive placebo or no treatment will not be subject to any risk of serious or irreversible harm.(28)

Evidently Dr. Boyle is relying on the Declaration's scrupulous wording, which appears to restrict the use of placebo-controlled trials to certain special circumstances, i.

e., as an exception rather than the rule. But her argument breaks down on closer reading of the document as a whole, which makes it clear that its principled hesitation regarding the use of placebo controls would rarely if ever apply to vaccine research, for several reasons.

First, the studies that allegedly prove vaccinations to be a safe and effective treatment are themselves profoundly flawed, as we have seen, while placebo-controlled trials have long since become the "gold standard" for establishing a causal relationship between any drug or medical procedure and the signs and symptoms that follow its use, whether intended or not, and are therefore the best technique that is currently available for determining the efficacy and safety of vaccines.

Second, vaccines are not given to treat anything, but rather to prevent a possible illness in the indefinite future that the subject might never actually encounter, and that might not be serious even then, whereas the spirit of the Declaration rules out the use of placebo controls solely in the exceptional circumstance of serious or potentially fatal diseases, either already present or imminently threatening, that would pose an imminent threat to life and limb if left untreated.

And third, many of the thousands of parents who chose not to vaccinate would happily volunteer their children to serve as the control group for such studies, in which case nobody would have to be deprived of anything or forced to submit to anything against their will, since they have already made and unequivocally declared their choice.

The overriding importance of free choice and the informed consent of the participants is emphasized in the very first article of the Nuremberg Code of 1947, in reaction to the inhuman medical experiments conducted in Nazi death and concentration camps, and upon which the Helsinki Declaration itself was explicitly based:

Required is the voluntary, well-informed, understanding consent of the human subject in a full legal capacity.(29)

Free choice and informed consent are of central importance in the Helsinki Declaration as well, since whether to waive or allow placebo controls would ultimately turn on the subject's or parent's own preference as to need and risk, which in a doubtful or ambiguous case would clearly trump any narrowly technical and methodological issues:

In medical research involving competent human subjects, each potential subject must be adequately informed of the aims, methods, sources of funding, any possible conflicts of interest, institutional affiliations of the researcher, the anticipated benefits and potential risks of the study and the discomfort it may entail, and any other relevant aspects of the study.

The potential subject must be informed of the right to refuse to participate in the study or to withdraw consent to participate at any time without reprisal. After ensuring that the potential subject has understood the information, the physician or another appropriately qualified individual must then seek the potential subject's freely-given informed consent, preferably in writing.(30)

PEDIATRICIANS THAT DO NOT ISSUE EXEMPTIONS – VIOLATIONS

Peds who do not issue med exemptions should lose their license to practice

It's so simple.

Vaccines are contraindicated for some according to the manufacturer and CDC.

Peds who do not make some pts exempt are committing malpractice.

They are not practicing according to the standard of care.

They are endangering and harming patients.

They should not have a license to practice medicine.

PAN RECALL 2015 – SACRAMENTO BEE

<https://www.sacbee.com/news/politics-government/capitol-alert/article52931130.html>

“After Gov. Jerry Brown signed Senate Bill 277, opponents turned to an attempt to recall Pan. Needing to gather 35,926 signatures by Dec. 31, they submitted none in Sacramento County or in Yolo County,

which contain Pan's 6th Senate District. 'Not a single signature,' said Susan Patenaude-Vigil, Yolo County's assistant clerk-recorder."

Amber Brooke:

I'm one of the few that can personally speak to this... there is way too much to type to fully articulate how and why that recall failed. Running it concurrently with the referendum is a huge factor along with misguided aspirations and inexperience politically etc. funding to recall is expensive and justifying the money for that over the lawsuits during that that was just not reasonable or logical. Once the referendum failed people were burned out of signature gathering. We had a lot more people "say" they would help than actually stepped up and paid signature gatherers were too expensive. We chose not to submit any because we stopped halfway through the timeline because the reality was it was not a good idea from the beginning. This was after meetings with political strategists and folks whose jobs are 100% on running successful recalls.

We were not controlled opposition and those of us that tried to run this recall ethically and successfully learned how awful the movement can be to leaders. It's not a place I want to be again. Nobody destroyed anything that I am aware of. I might even have a box of petitions sitting around in my garage still... Austin Bennett is a totally different beast than those of us from the first recall.

VACCINE ADVERSE REACTION – MUST BE NOTED IN RELATED TO INJURY

"(7) *Adverse reactions*. This section must describe the overall adverse reaction profile of the drug based on the entire safety database. For purposes of prescription drug labeling, an adverse reaction is an undesirable effect, reasonably associated with use of a drug, that may occur as part of the pharmacological action of the drug or may be unpredictable in its occurrence. **This definition does not include** all adverse events observed during use of a drug, **only those adverse events for which there is some basis to believe there is a causal relationship between the drug and the occurrence of the adverse event.**"

INFANT DEATHS

The Tdap vaccine started to be given to pregnant women in 2011 and this is when fetal deaths started to outnumber infant deaths for the first time. There has been a study showing that Tdap vaccine increases rate of miscarriage by 16.7% in the third trimester. And since it's the third trimester it's considered a fetal death.

U.S. has highest first-day infant mortality out of industrialized world, group reports

A new report reveals that the United States has the highest first-day infant death rate out of all the industrialized countries in the world.

About 11,300 newborns die within 24 hours of their birth in the U.S. each year, 50 percent more first-day deaths than all other industrialized countries combined, the report's authors stated.

2012 VACCINE MANUFACTURER STUDY - HPV

Pharmaceutical Companies' Role in State Vaccination Policymaking: The Case of Human Papillomavirus Vaccination

"Objectives. We sought to investigate roles that Merck & Co Inc played in state human papillomavirus (HPV) immunization policymaking, to elicit key stakeholders' perceptions of the appropriateness of these activities, and to explore implications for relationships between health policymakers and industry ...

Results. Merck promoted school-entry mandate legislation by serving as an information resource, lobbying legislators, drafting legislation, mobilizing female legislators and physician organizations, conducting consumer marketing campaigns, and filling gaps in access to the vaccine. Legislators relied heavily on Merck for scientific information. Most stakeholders found lobbying by vaccine manufacturers acceptable in principle, but perceived that Merck had acted too aggressively and nontransparently in this case."

VACUNAS MEXICO

INFORMACION IMPORTANTE SOBRE VACUNACION EN MEXICO PARA IR A LA ESCUELA -- NO TIENES QUE VACUNARLOS PARA ATENDER

Me comunique con Evelyn Jimenez-Lugo, la secretaria particular del subsecretario de Educacion Basica in BC en Mexicali, Alejandro Bahena Flores, a quien le pregunte si era requisito vacunar a nuestros hijos para ir a la escuela o guarderias. Confirmando Evelyn con su jefe y la Directora de Educacion Preescolar, Araceli Pereira Fonseca, que la vacunacion no es obligatoria, y que una persona puede evitar vacunacion simplemente diciendo que es en contra de las creencias religiosas de los padres, las cuales son protegidas por el Articulo 3 de la Constitucion Mexicana sobre el derecho de educacion. Los derechos religiosos son cubiertos por el Articulo 24, el cual dice:

"Artículo 24. Toda persona tiene derecho a la libertad de convicciones éticas, de conciencia y de religión, y a tener o adoptar, en su caso, la de su agrado. Esta libertad incluye el derecho de participar, individual o colectivamente, tanto en público como en privado, en las ceremonias, devociones o actos del culto respectivo, siempre que no constituyan un delito o falta penados por la ley."

Me explico que algunas escuelas tienen una forma para que los padres firmen para reclamar este derecho religioso de no vacunar y otras que solo le piden una carta al padre que exprese esto.

WI = Wistar Institute, and 38 signifies the 38th aborted baby, a 1966 model I think. Clearly, sadly, the first 37 didn't 'work'. Or the previous adrenochrome was needed for some other purpose, by 'people' on high. Sounds like a right ROYAL carry one, one suspects. (from Courtenay)

The Universal Declaration of Human Rights (UDHR) is a historic document that was adopted by the United Nations General Assembly at its third session on 10 December 1948 as Resolution 217 at the Palais de Chaillot in Paris, France.

The Nuremberg Code and the related Declaration of Helsinki are the basis for the Code of Federal Regulations Title 45 Part 46, which are the regulations issued by the United States Department of Health and Human Services for the ethical treatment of human subjects, and are used in Institutional Review Boards (IRBs).

ROBERT KENNEDY QUOTES ON TRUMP COMMISSION --- BOBBY--

<https://www.beckershospitalreview.com/quality/7-quotes-from-robert-f-kennedy-on-trump-s-proposed-vaccine-panel.html>

1. On why Mr. Trump called the meeting: "He wants to make sure that we have the best vaccine science and the safest vaccine supply that we can have."
2. On Mr. Trump's vaccine suspicions: "He is troubled by questions of the links between certain vaccines and the epidemic of neurodevelopmental disorders including autism. And he has a number — he told me five — friends, he talked about each one of them, who has the same story of a child, a perfectly healthy child who went into a wellness visit around age 2, got a battery of vaccines, spiked a fever, and then developed a suite of deficits in the three months following the vaccine. He said that he understood that anecdote was not science, but said that if there's enough anecdotal evidence ... that we'd be arrogant to dismiss it. Those were his words."
3. On one of the primary goals of the possible panel: "To make sure that we're getting good science out of CDC."
4. On the CDC: "We talked a lot about CDC and ways to increase the independence from financial conflicts at CDC in the vaccine division... [CDC] is the locus of most of the most serious problems with the vaccine program, the two divisions at CDC: the Advisory Committee on Immunization Practices and the Immunization Safety Office, which is where the scientists are."
5. On who will serve on the commission: "A dozen people — a mix between science people and prominent Americans...We are going to look for people who have expertise in toxicology, epidemiology and in public health."
6. On whether Mr. Kennedy has science training: "No. My background is I'm an environmental lawyer. I'm not a scientist. But I have an expertise, I would say, in reading science and spotting junk science because that's what I do with most of my time."

7. On the value of vaccines: "I am for vaccines. I have been tracking mercury in fish for 30 years and nobody has called me antifish. I am pro-vaccine. I had all my kids vaccinated. I think vaccines save lives. But we are also seeing an explosion in neurodevelopmental disorders and we ought to be able to do a cost-benefit analysis and see what's causing them. We ought to have robust, transparent science and an independent regulatory agency. Nobody is trying to get rid of vaccines here. I just want safe vaccines."

ANDY WAKEFIELD ON TRUMP MEETING

<https://www.inquisitr.com/3766446/vaxxed-director-andrew-wakefield-anti-vaccine-movement-galvanized-by-donald-trumps-win/>

"For the first time in a long time, I feel very positive about this, because Donald Trump is not beholden to the pharmaceutical industry... He didn't rely upon [drug makers] to get him elected. And he's a man who seems to speak his mind and act accordingly. So we shall see."

"I found him to be extremely interested, genuinely interested, and open-minded on this issue, so that was enormously refreshing."

"Now that Trump won, we can all feel safe in sharing that Mr. Trump met with autism advocates in August. He gave us 45 minutes and was extremely educated on our issues. Mark stated 'You can't make America great with all these sick children and more coming'. Trump shook his head and agreed. He heard my son's vaccine injury story. Andrew told him about Thompson and gave him Vaxxed. Dr. Gary ended the meeting by saying 'Donald, you are the only one who can fix this'. He said 'I will'. We left hopeful. Lots of work left to do." (either Jennifer Larson, CEO of autism group Holland Center or Wakefield)

–Rudolf Steiner: Fall of the Spirits of Darkness Lecture 13 The Fallen Spiritsâ€™™ Influence in the World, Dornach, 27, Oct. 1917

A longing will arise (and become) general opinion: Whatever is spiritual, whatever is of the spirit, is nonsense, is madness! Endeavours to achieve this will be made by bringing out remedies to be administered by inoculation just as inoculations have been developed as a protection against diseases, only these inoculations will influence the human body in a way that will make it refuse to give a home to the spiritual inclinations of the soul. People will be inoculated against the inclination to entertain spiritual ideas. Endeavours in this direction will be made; inoculations will be tested that already in childhood will make people lose any urge for spiritual life.

Rudolf Steiner, Lecture 3, Secret Brotherhoods and the Mystery of the Human Double: Seven Lectures. Read original lecture...

[page 199, 200] Steiner: I have told you that the spirits of darkness are going to inspire their human hosts, in whom they will be dwelling, to find a vaccine that will drive all inclination towards spirituality out of people's souls when they are very young, and this will happen in a roundabout way through the living body. Today, bodies are vaccinated against one thing and another; in future, children will be vaccinated with a substance which it will certainly be possible to produce, and this will make them immune, so that they do not develop foolish inclinations connected with spiritual life 'foolish' here, of course, in the eyes of materialists.

That's because **new research from the University of Oxford's Center for Evidence-Based Medicine and the University of the West of England has found that the swab-based technique used for most COVID-19 testing is at risk of returning "false positives"** since copies of the virus's RNA detected by the tests might simply be dead, inactive material from a weeks-old infection. Although patients infected with COVID-19 are typically only infectious for a week or less, tests can be triggered by virus genetic material left over from a weeks-old infection.

In newly surfaced July interview, Fauci warns that widely used COVID-19 tests may pick up 'dead' virus. CYCLES IN TESTING

<https://justthenews.com/politics-policy/coronavirus/newly-surfaced-video-july-fauci-tests-dead-virus>

Fauci Interview: https://www.youtube.com/watch?v=a_Vy6fgaBPE&feature=emb_logo

"Concerns have been raised over the last several months that laboratory tests widely deployed to detect SARS-Cov-2 — what are known as polymerase chain reaction, or PCR, tests — may in fact be picking up remnants of the virus instead of meaningful levels of infection. Some critics have argued that significant numbers of purportedly positive COVID-19 tests are actually not infectious at all.

At the center of the debate is the "cycle threshold" at which a PCR test operates. PCR tests work by multiplying a virus fragment over a series of cycles until it can reliably detect and confirm the virus within a sample. The more cycles a test must go through before it detects the virus, the smaller and weaker the original sample was.

High cycles, in other words, are expected to correlate to weaker viral samples, indicating that a patient's "positive" case in that context may be more or less meaningless from an epidemiological or virological perspective.

"What is now sort of evolving into a bit of a standard," Fauci said, is that "if you get a cycle threshold of 35 or more ... the chances of it being replication-confident are minuscule."

"It's very frustrating for the patients as well as for the physicians," he continued, when "somebody comes in, and they repeat their PCR, and it's like [a] 37 cycle threshold, but you almost never can culture virus from a 37 threshold cycle."

"So, I think if somebody does come in with 37, 38, even 36, you got to say, you know, it's just dead nucleotides, period."

FED OSHA ON FACE COVERINGS – MASK

<https://www.osha.gov/SLTC/covid-19/covid-19-faq.html#collapse7>

Are employers required to provide cloth face coverings to workers?

Cloth face coverings are not considered personal protective equipment (PPE) and are not intended to be used when workers need PPE for protection against exposure to occupational hazards. As such, OSHA's PPE standards do not require employers to provide them.

The General Duty Clause, Section 5(a)(1) of the Occupational Safety and Health Act, requires each employer to furnish to each of his employees employment and a place of employment which are free from recognized hazards that are causing or are likely to cause

death or serious physical harm. Control measures may include a combination of engineering and administrative controls, safe work practices like social distancing, and PPE.

However, employers may choose to ensure that cloth face coverings are worn as a feasible means of abatement in a control plan designed to address hazards from SARS-CoV-2, the virus that causes COVID-19. Employers may choose to use cloth face coverings as a means of source control, such as because of transmission risk that cannot be controlled through engineering or administrative controls, including social distancing.

Cure for CV Vacciens:

SURAMIN

Interviewer Jason Shurka: Do you know of any way, to heal oneself from the injuries from the current injection? Are you aware of anything?

Dr.Judy Mikovits: There's an antidote. Because these people wouldn't be injecting people unless they knew the answer. SURAMIN [S-U-R-A-M-I-N]. This is the most important antidote. It's 100-year-old essential medicine, WHO (World Health Organization) essential medicine for African Sleeping Sickness. You can inoculate the tiniest amount of Suramin, and reverse Autism.

The antidote is called Suramin. Suramin is found in many forests around the world in Pine needles. Suramin is an extract of Pine needle oil. It comes in a synthetic pharmaceutical concentrate which can be injected into your body in case of emergencies or you can simply extract Pine oil through distillation.

Even better, you can ingest Suramin simply by drinking Pine needle tea. Suramin has inhibitory effects against components of coagulation (clotting) cascade and against the inappropriate replication and modification of RNA and DNA.

PROTECT AGAINST COVID & VACCINES' SPIKE PROTEINS

it contains important information on how you can protect yourself against spike proteins found in the weaponized pathogen called COVID-19 and in the so-called vaccines offered to treat that illness.

Health in the face of this threat is made possible through a robust immune system AND something called nitric oxide.

Nitric oxide is an incredibly important gas molecule that your body naturally produces. It affects nearly every organ and system in your body, including your immune system and your blood vessels. It is essential for fighting off toxic pathogens of all kinds and their biofilms that contribute to chronic infection – and that includes COVID.

A 2005 study showed that nitric oxide significantly inhibits the replication cycle of SARS-CoV and inhibits viral protein and RNA synthesis.

FDA USE AUTHORIZATION – CANNOT MAKE PRODUCT MANDATORY

How will vaccine recipients be informed about the benefits and risks of any vaccine that receives an EUA?

FDA must ensure that recipients of the vaccine under an EUA are informed, to the extent practicable given the applicable circumstances, that FDA has authorized the emergency use of the vaccine, of the known and potential benefits and risks, the extent to which such benefits and risks are unknown, **that they have the option to accept or refuse the vaccine**, and of any available alternatives to the product. Typically, this information is communicated in a patient “fact sheet.” The FDA posts these fact sheets on our website.

PCR TESTING VOLUNTARY – CDC

“When testing is not recommended?”

If a school is implementing a testing strategy, testing should be offered on a voluntary basis. It is unethical and illegal to test someone who does not want to be tested, including students whose parents or guardians do not want them to be tested. It is not recommended to retest individuals who have tested positive and do not have symptoms for COVID-19 for up to 3 months from their last positive test. Data currently suggest that some individuals test persistently positive due to residual virus material but are unlikely to be infectious. Parents or guardians may request documentation from their health care provider to indicate the date and type of the student's most recent COVID-19 test."

The So-Called COVID-19 “Vaccine”. Is Really A Dangerous Experimental Gene Therapy - Dr. Hotze on the Dangers of the COVID-19 Vaccine:

The Dr Hotze Video is followed automatically by a 3 minute video of a clinical lab scientist who tested the samples of 1500 so-called 'positive Covid' and found ZERO actual Covid, just influenza.... He then "sent the remainder of the samples to Stanford, Cornell,...and they found the same result that we did--NO Covid! They found influenza..." He then asked CDC to provide some samples of Covid --they could not provide any samples.

"We have now come to the firm conclusion thru all our research and lab work that the Covid 19 is imaginary and fictitious..." It was just the flu. We at the seven universities that did the tests are now suing the CDC for fraud."

ANAPHYLAXIS AFTER COVID-19 VACCINATION (ICAN)

ICAN, through its attorneys, has once again written to Dr. Rochelle Walensky, the new Director of the CDC, this time to demand an answer as to why the CDC's reporting of anaphylaxis following COVID-19 vaccination is not in line with a clinical study conducted which shows much higher rates following these vaccinations.

The CDC [tells](#) the public that "Anaphylaxis after COVID-19 vaccination is **rare** and occurred in approximately 2 to 5 people per million vaccinated in the United States based on events reported to VAERS." However, ICAN reviewed a [recent study](#) at Mass General Brigham that assessed anaphylaxis in a clinical setting after the administration of COVID-19 vaccines. This study, in stark contrast to the CDC's claim, found "**severe reactions consistent with anaphylaxis occurred at a rate of 2.47 per 10,000 vaccinations.**" This is equivalent to 50 times to 120 times more cases than what VAERS and the CDC are reporting!

In [a letter](#) to Dr. Walensky, ICAN explained that this alarming underreporting of anaphylaxis by the CDC and VAERS is particularly troubling because it is [mandatory](#) for medical providers to report anaphylaxis after any COVID-19 vaccine to VAERS. In addition, the CDC [reports](#) that most of these reactions occur within 30 minutes of vaccination. The [study](#) reported that the mean time to reaction is 17 minutes post-vaccination. This means that vaccine administrators, then, should

be aware of a majority, if not all, of these cases as vaccine recipients are supposed to be observed for 15 to 30-minute periods following vaccination at all vaccination sites.

4/8/21 – CDC CLEANING PROTOCOLS

On Monday, April 5, the Centers for Disease Control and Prevention (CDC) updated some of the COVID-19 guidelines regarding [cleaning protocols](#). Cleaning areas with just soap and water once per day is now considered generally adequate for most facilities – however, areas containing a low number of people wearing masks or exhibiting infrequent hand hygiene may still want to consider cleaning more frequently. Schools, healthcare settings, facilities assisting the elderly, and places known to have had a COVID-19 exposure are some of the areas still recommended to implement additional cleaning and disinfecting measures.

PSALM 106:34-39

They did not destroy the nations, concerning whom the LORD commanded them: But were mingled among the heathen, and learned their works. And they served their idols: which were a snare unto them. Yea, they sacrificed their sons and their daughters unto devils, and shed innocent blood, even the blood of their sons and of their daughters, whom they sacrificed unto the idols of Canaan: and the land was polluted with blood. Thus were they defiled with their own works, and went a whoring with their own inventions.

Cleaning and Disinfecting Your Home – April 5, 2020

U.S. Equal Employment Opportunity Commission (EEOC) – RELIGIOUS DISCRIMINATION <https://www.eeoc.gov/laws/guidance/questions-and-answers-religious-discrimination-workplace>

Per the 1964 Civil Rights act:

"Title VII protects all aspects of religious observance and practice as well as belief and defines religion very broadly for purposes of determining what the law covers. For purposes of Title VII, religion includes not only traditional, organized religions such as Christianity, Judaism, Islam, Hinduism, and Buddhism, but also religious beliefs that are new, uncommon, not part of a formal church or sect, only subscribed to by a small number of people, or that seem illogical or unreasonable to others. An employee's belief or practice can be "religious" under Title VII even if the employee is affiliated with a religious group that does not espouse or recognize that individual's belief or practice, or if few – or no – other people adhere to it. Title VII's protections also extend to those who are discriminated against or need accommodation because they profess no religious beliefs.

Religious beliefs include theistic beliefs (i.e. those that include a belief in God) as well as non-theistic "moral or ethical beliefs as to what is right and wrong which are sincerely held with the strength of traditional religious views." Although courts generally resolve doubts about particular beliefs in favor of finding that they are religious, beliefs are not protected merely because they are strongly held. Rather, religion typically concerns "ultimate ideas" about "life, purpose, and death." Social, political, or economic philosophies, as well as mere personal preferences, are not "religious" beliefs protected by Title VII."

THE HEALTHY AMERICAN.ORG

and **CANNOT** deny entry based on vaccination status

BUSINESSES CANNOT LEGALLY ASK FOR PROOF OF VACCINATION

THIS IS A VIOLATION OF YOUR PRIVACY AND PROPERTY RIGHTS AS PROTECTED BY STATE AND FEDERAL LAW

The Fourth Amendment of the U.S. Constitution states, "The right of the people to be secure in their persons, houses, papers and effects, against unreasonable searches and seizures, shall not be violated."

Any person who violates your rights can be held liable under Title 18 USC Section 242, deprivation of rights. Penalty for this crime can include life in prison or death penalty.

Title III of the U.S. Civil Rights Act prohibits discrimination based on medical condition (i.e. unvaccinated) in private businesses such as grocery stores, banks, restaurants, hotels, retail stores and all public facilities including schools.

It is **ILLEGAL** to require proof of vaccination as a condition for entry or service to any private business or public establishment.

CA HEALTH AND SAFETY CODE 24171 AND 24172 --- NUREMBERG CODE

■ PEGGY HALL – LETTER TO BOARD OF SUPERVISORS AGAINST VACCINE PASSPORTS

To the Board:

Forcing a medical experiment upon an individual as a condition to participate in society is illegal, unlawful and immoral and reprehensible and it is a violation of our God-given, Natural, and Common Law rights, as expressed and confirmed in the American Declaration of Independence, and as reflected in the constitution of this state and the constitution of the United States.

1. There is no emergency. There never has been one. The numbers don't support it.
2. This board is perpetuating the notion of an emergency to get money, to impose tyranny and to unlawfully force medical experimentation upon the populace. This so-called vaccine has only gotten an emergency use authorization under the guise of an emergency; otherwise the EUA is null and void (by the way, masks and covid tests are EUAs as well.)
3. Even if this could be called an emergency, no emergency suspends one's rights. Rights cannot be taken from you.
4. This board is perpetrating fraud, and fraud is a felony and a felony carries a prison sentence. You are hereby notified that if you engage in harassment, intimidation and/or retaliation against any member of the public including me, for this statement of truth, such actions will be reported to the FBI.

It doesn't matter whether vaccines work or not.

It doesn't matter whether this is even a vaccine or not.

What matters is that each individual has sovereignty and authority over their own body.

We know what this board is doing.

We know exactly what this board is doing.

Here's the real truth:

These so-called vaccine can never be required as a condition for commerce.
Among many laws that protect individuals from the excess power of government tyrants, here are just a few...

1. EMERGENCY USE AUTHORIZATION LIMITATIONS on All COVID-19 vaccines , which are under an Emergency Use Authorization (EUA) and cannot be made mandatory.

On its website, the U.S. Food and Drug Administration (FDA) notes the following:
"...Recipients must be informed... that they have the option to accept or refuse the vaccine ."

2. Forced vaccination violates the right to privacy, which is protected, secured and guaranteed by the 4th Amendment of the US and the constitution of this state.

3. Forced vaccination is unlawful DISCRIMINATION, discriminating against those who have cell phones or want to participate in AI.

Further, forced vaccination is a violation of:

- CA GOV Code 51, which protects FREE AND EQUAL access to ALL PUBLIC ACCOMMODATIONS:

Public Accommodations are "private businesses engaged in commerce." That means retails stores, banks, restaurants, recreation, transportation – and entity, location or establishment that is open to the public is prohibited from discriminating against the entry of a member of the public.

- CA GOV CODE 12926 (q) protects one's religious liberty and practice, including the ability to NOT PARTICIPATE in practices that violate one's sincerely held religious beliefs

- CA GOV CODE 37100 – prevents any creation, application or enforcement of a law or policy that violates the California Constitution or the Constitution of the United States.

- CA HSC 24171 and 24172 declare that individuals have the right to determine what is done to their own bodies and to refuse consent to medical experimentation without duress, coercion or influence

WARNING TO ALL GOVERNMENTAL, PUBLIC AND PRIVATE ENTITIES AND PERSONS
Based on the above, and on behalf of all those named and referenced herein:

(a) No business or organization, including any governmental agency has the authority to force me or anyone else to take any and all COVID-19 vaccines, as well as any other vaccine;

(b) No business or organization, including any governmental agency, has the authority to deny me any and all services provided to COVID-19 vaccinated individuals;

(c) Denial of any such services, will be a violation of our God-given, Natural, Common Law, state and federal constitutional and international rights not to be vaccinated in any way or form without our consent, this includes our right not to be tracked based on our vaccination status; and

(d) Any such government agency, business or organization, person's acting as offices of such entities, man and/or woman, violating our right not to vaccinate against COVID-19 will be liable under tort law and for deprivation of rights under color of law, and will be subject to lawsuits, accordingly.

A tort, in common law jurisdiction and otherwise, is a civil wrong that causes a claimant to suffer loss or harm, resulting in legal liability for the person who commits the tortious act. It can include intentional infliction of emotional distress, negligence, financial losses, injuries, invasion of privacy, and many other things. In summary, no COVID-19 vaccination can be required in order to operate in community and social life, whether it is to go shopping, to work, to visit recreational areas, to visit persons in medical establishments, to travel, to visit restaurants or any business, or to enjoy are God-given right to go about our lives without government or corporate interference.

Failure to respect this, and any intent to violate anyone's right not to receive any vaccine for COVID-19 or any other disease may and will result in legal action against those involved:

(1) In the case of government officials, coercing and forcing any person to take such vaccines is a violation of your Oath of Office, your obligation to protect our constitutional rights, and will strip you of any and all governmental immunity for acting outside of your authority; and

(2) In the case of any business and organization, man or woman, coercing and forcing any person to take such vaccination in order to provide any services or to provide access to your establishment, will be considered a violation of constitutional rights, subjecting your business or entity, and you as a private citizen, a man or a woman, to legal action against all of your assets. Business and organization policies are not above the law.

LEGAL NOTICE: If I am compelled or forced to vaccinate to receive your services and I am injured, it will be considered coercion, duress and against our will, and you will be held liable for any such injury. I note here that we are not refusing vaccination, we are simply declining such vaccination for the reasons noted herein, and as mandated by God, the highest legal authority.

BOARD OF SUPERVISORS TALKING POINTS

prepared by Peggy Hall, TheHealthyAmerican.org and FreedomforCalifornia.org

1. Digital vaccine passports of any kind are discriminatory against those based on their medical status, religious beliefs and more. Requiring a vaccine as a condition to participate in society is unlawful, immoral, unethical and unthinkable.
2. Private businesses are NOT above the law and they are PROHIBITED from implementing any such verification program as a condition of doing business.
3. We are demanding that this board:
 - a. Publicly state its opposition to the vaccine passport;
 - b. Cancel the OTHENA contract which was unlawfully approved; and
 - c. Put businesses on notice that they will be held liable for any discrimination of the public based on vaccine status.
4. **California Government Code 12926 (q)** protects one's religious liberty and practice, including the ability to NOT PARTICIPATE in practices that violate one's sincerely held religious beliefs
5. **California Government Code 37100** states that NO county, municipality or legislative body may pass or enforce a law that violates the laws of this state or the laws of the United States.
6. It is unlawful, unethical, immoral and unthinkable to state that private businesses can require a vaccine passport or vaccine verification as a condition for conducting business. Is it even possible that you are this ignorant of the law?
California Civil Code 51 protects our PERSONAL RIGHTS and states that:
All persons within the jurisdiction of this state are free and equal, and no matter what their sex, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, citizenship, primary language, or immigration status are entitled to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments of every kind whatsoever.
7. **California Health and Safety code 101080** states that a local health emergency *can only be called* where there is an 'IMMINENT AND PROXIMATE THREAT of the INTRODUCTION of a contagious disease...' and this local health emergency EXPIRES AFTER SEVEN DAYS.
The local health emergency was called in Feb of 2020; this is 15 months later. THERE IS NO EMERGENCY! There is no imminent and proximate threat of an introduction of a contagious disease.
8. There is no emergency, and there never has been. The numbers don't add up. You are participating in this charade to: get money – which is fraud; to implement the emergency vaccines (also fraud); and to impose authoritarian control. Fraud is a felony, and felonies carry a prison sentence. Many public servants are behind bars serving hard time for their crimes.
9. You don't go into the emergency room with a broken leg and stay in the EMERGENCY until your leg is healed. You get a cast on your leg – and then **you are released from the EMERGENCY room** – because IT IS NO LONGER AN EMERGENCY, even though your leg is not yet healed.
10. Requiring a Covid vaccine (which is a medical experiment) as a condition to participate in society is UNLAWFUL COERCION according to CA law. California Laws PROHIBIT this:
24170: This is the Protection of Human Subjects in Medical Experimentation Act
24171: The Legislature hereby finds and declares ... **the right of individuals to determine what is done to their own bodies.**
24172 This is the "experimental subject's bill of rights," and states that individuals...
(j) Be given the opportunity to decide to consent or not to consent to a medical experiment without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the subject's decision.

DEFENSES – I DO NOT ACCEPT YOUR OFFER

COVID-19 vaccine efficacy and effectiveness—the elephant (not) in the room

“the absolute risk reduction (ARR), which is the difference between attack rates with and without a vaccine, considers the whole population. ARR tends to be ignored because they give a much less impressive effect size than RRRs: 1.3% for the AstraZeneca–Oxford, 1.2% for the Moderna–NIH, 1.2% for the J&J, 0.93% for the Gamaleya, and 0.84% for the Pfizer–BioNTech vaccines.”

RELIGIOUS EXEMPTION TO VACCINE – MICHIGAN COURT – STRICT SCRUTINY

"The welcome news to lawyers in the field is that the court applied strict scrutiny to what it characterized as the students' right to practice a religion.

But the really, really big news is that the court acknowledged the connection between a vaccine mandate and constitutionally protected religious rights. I may be wrong, but I don't think that has ever happened before. Meaning, I don't think any federal court has held that there is a constitutionally protected religious freedom right not to be vaccinated under a vaccine mandate."

EEOC DISCRIMINATION ON RELIGIOUS EXEMPTIONS

Religious discrimination involves treating a person (an applicant or employee) unfavorably because of his or her religious beliefs. The law protects not only people who belong to traditional, organized religions, such as Buddhism, Christianity, Hinduism, Islam, and Judaism, but also others who have sincerely held religious, ethical or moral beliefs.

... The law forbids discrimination when it comes to any aspect of employment, including hiring, firing, pay, job assignments, promotions, layoff, training, fringe benefits, and any other term or condition of employment.

<https://www.eeoc.gov/religious-discrimination>

The Office of General Counsel (OGC) conducts litigation on behalf of the EEOC to obtain relief for victims of employment discrimination and to ensure compliance with the statutes that EEOC is charged with enforcing. The EEOC has the authority to sue nongovernmental employers for violations of Title VII of the Civil Rights Act, the Americans with Disabilities Act (ADA), and the Genetic Information Nondiscrimination Act (GINA).

<https://www.eeoc.gov/litigation>

Filing a complaint with EEOC

<https://www.eeoc.gov/how-file-charge-employment-discrimination>

A charge of discrimination is a signed statement asserting that an organization engaged in employment discrimination. It requests EEOC to take remedial action. The laws enforced by EEOC, except for the Equal Pay Act, require you to [file a charge](#) before you can file a lawsuit for unlawful discrimination. There are strict [time limits for filing a charge](#).

A Charge of Discrimination can be completed through our [EEOC Public Portal](#)

Filing with EEOC:

<https://publicportal.eeoc.gov/Portal/Forms/NewEditForm.aspx?templateId=160&userKey=>

<https://www.eeoc.gov/how-file-charge-employment-discrimination> - from that page:

You can also file a charge by sending us a letter that includes the following information:

Your name, address, email, and telephone number

The name, address, email, and telephone number of the employer (or employment agency or union) you want to file your charge against

The number of employees employed there (if known)

A short description of the actions you believe were discriminatory (for example, you were fired, demoted, harassed)

When the discriminatory actions took place

Why you believe you were discriminated against (for example, because of your race, color, religion, sex (including pregnancy, gender identity, and sexual orientation), national origin, age (40 or older), disability, genetic information, or retaliation)

Your signature

Don't forget to sign your letter. If you don't sign it, we cannot investigate it. Your letter will be reviewed and if more information is needed, we will contact you to gather that information.

One way to go about it is to require your employer provide proof that no employee can transmit any other communicable disease. An involved citizen writes:

"I made it clear through my lawyer I would begin to demand the status of all other employee's health condition in regards to other forms of communicable diseases. We would be demanding information on employees with AIDS, hepatitis, tuberculosis, flu, STD, measles, mumps, and so on. My lawyer had the paper already drawn up so I could serve him (the employer) the first day he tried it, and part of the suit would be to force the company to immediately section off employees who had any illness they could spread including the common cold. If they were going to take responsibility in stopping the spread of COVID-19 in the building, they were now liable for the spread of anything else. Within 24 hrs we were all informed that they would no longer demand to see our papers."

FDA Refuses to Provide Key COVID-19 Vaccine Safety Analyses

https://www.theepochtimes.com/mkt_app/exclusive-fda-refuses-to-provide-key-covid-19-vaccine-safety-analyses_4722586.html

Empirical Bayesian data mining

According to operating procedures laid out by the agency and its partner in [January 2021](#) and [February 2022](#), the FDA would perform data mining “at least biweekly” to identify adverse events “reported more frequently than expected following vaccination with COVID-19 vaccines.” The agency would

perform the mining on data from the Vaccine Adverse Event Reporting System (VAERS).

CDC - Proportional Reporting Ratio

The Centers for Disease Control and Prevention (CDC), according to the documents outlining operating procedures, was going to perform a different type of data mining analyses, called Proportional Reporting Ratio (PRR) mining.

It has also twice provided false information when responding to questions.

Study: Mercury in vaccines not harmful to kids – San Diego Union

The UT published an article on September 27, 2007, titled “Study: Mercury in vaccines not harmful to kids,” that points to a “large” federal study that concluded that thimerosal/mercury “does not raise the risk of neurological problems in children.” The article continues with this disturbing information:

“However, the study DID NOT EXAMINE AUTISM, the developmental disorder that some critics blame on vaccines.”

“However, they said one finding merited further study: Boys exposed to higher mercury levels SEEMED TO HAVE MORE TIC PROBLEMS – A LINK SEEN IN PREVIOUS RESEARCH.”

More Studies Confirm the COVID Jab Does More Harm Than Good

<https://takecontrol.substack.com/p/covid-shots-cause-more-harm-than-good>

- A peer-reviewed scientific review in the Journal of Insulin Resistance, written by cardiologist Dr. Aseem Malhotra, calls for the immediate suspension of all COVID shots as real-world data show they cause more harm than good
- Data from Israel shows myocarditis post-jab is occurring at a rate of 1 in 6,000. Hong Kong data from male children and teens found a rate of 1 in 2,700
- Data from the British Yellow Card system shows 1 in 120 people who have received at least one mRNA injection suffer an adverse event “that is beyond mild.” In Norway, the rate of serious adverse events post-jab is 1 in 1,000 after two doses of Pfizer
- Researchers looking at data from the FDA, Health Canada and the Pfizer and Moderna trials concluded the absolute risk of a serious adverse event from the mRNA shots was 1 in 800, which massively exceeds the risk of COVID-19 hospitalization found in randomized controlled trials
- Leaked audio from a June 2022 meeting between Israeli researchers and the Israeli Ministry of Health reveals the Pfizer jab causes long-term adverse effects and is associated with more severe side effects upon rechallenge (i.e., with repeated doses). While the researchers wanted to warn the public, the Ministry altered their final report to say that adverse effects are mild and short-lived. The government then canceled any further research into adverse effects

VATICAN ON “INFINITE DIGNITY”

1. (*Dignitas infinita*) **Every human person possesses an infinite** [unlimited; without end] **dignity**, [the state or quality of being worthy of honor or respect.] **inalienably** [unable to be taken away or given away by possessor] **grounded in his or her very being, which prevails in and beyond every circumstance, state, or situation the person may ever encounter.** This principle, which is fully recognizable even by reason alone, underlies **the primacy of the human person and the protection of human rights.** In the light of Revelation, the Church resolutely reiterates and confirms the ontological dignity of the human person, **created in the image and likeness of God and redeemed in Jesus Christ.** From this truth, the Church draws the reasons for her commitment to the weak and those less endowed with power, always insisting on “the primacy of the human person and the defense of his or her dignity beyond every circumstance.” [2]

**RELIGIOUS RIGHTS (NOT WORK ON A SUNDAY) SUPREME COURT CASE:
GROFF v. DEJOY, POSTMASTER GENERAL**

PEGGY: In the Hardison case, lower courts and the EEOC seized on the phrase "de minimis" as the guiding criterion for undue hardship defenses, but as detailed in the SCOTUS decision, that particular phrase was cherry-picked out of context. Instead, SCOTUS highlighted what was repeatedly described in Hardison:

"In describing an employer's "undue hardship" defense, Hardison referred repeatedly to "**substantial**" **burdens**, and that formulation better explains the decision. The Court understands Hardison to mean that "undue hardship" is shown when a **burden is substantial** in the overall context of an employer's business."

"The [court holds](#) that showing "more than a de minimis cost," as that phrase is used in common parlance, does NOT suffice to establish undue hardship under Title VII. Hardison cannot be reduced to that one phrase. In describing an employer's undue hardship defense, Hardison referred repeatedly to "substantial" burdens, and that formulation better explains the decision. The court understands Hardison to mean that undue hardship is shown when a burden is substantial in the overall context of an employer's business. This fact-specific inquiry comports with both Hardison and the meaning of 'undue hardship' in ordinary speech."

LAW AGAINST MEDICAL TYRANNY

It shall be illegal for any person, private entity, organization, health agency, medical board, or government agency, hereinafter the “accusing party”, to take any action, administrative, legal, civil, or criminal, or otherwise punitive, against any private individual, physician, medical organization, whether orthodox, homeopathic, or otherwise, hereinafter the “accused party”, for being involved in promoting or performing treatments against any disease, whose overall patients have had positive results from such treatments, such as for cancer, infectious diseases, and other physical or medical ailments, regardless of whether the accused party sold any of the related substances, products, therapies or provided the advise for a fee, or free of charge.

Only an individual personally harmed by any such treatment or their legal representative(s) will have standing in a court of law to bring civil action against any accused party. If such legal action is taken, the accused party will have the right to present all documentation and witnesses in their favor to show that their treatment is successful in alleviating, reducing, or curing the involved disease, or that they are not doing any harm that the accused party did not advise the accusing party of prior to any treatment.

No medical organization or governmental prosecuting agency shall take any civil or criminal action against any individual or organization for promoting or participating in treatments for disease that the principle of parsimony and cilnical history has shown to be effective to treat to any degree the disease in question, which can be proven by causal relationship, anectotal evidence, or patient first hand experience.

It will be illegal for any government agency or executive branch of government, local, county, state or federal, to confiscate any medical or other records, instruments, devices, medications, or the like from any person or organization accused of medical malpractice, fraud, or the like as referenced herein. Such authorities will only have a right to copy such documents and photograph any objects. In the case of any medical substances, such agencies will only have a right to take a sample of such substances involved in such treatments.

Any person or organization involved directly or indirectly in the suppression of medical information regarding treatments that can alleviate, reduce or cure disease, or involved in discrediting any person promoting such beneficial treatments, as well as such treatments, will be guilty of CRIMES AGAINST HUMANITY and will be civilly and criminally liable for their actions, and open for lawsuits by any person who suffered as a result of their negative portrayal of such beneficial treatment, whether the accused parties, those denied such treatments, such as any accused party patients, or those discouraged from using such treatments.
