Dear President Trump,

I want to thank you and Dr. Shannon Kroner for all you are doing to help eliminate vaccine mandates. Because we know that all vaccines have caused harm to many we cannot say that vaccines are safe, as claimed by Big Pharma and our health agencies. This being the case, your incoming administration, which will include Bobby Kennedy in the health arena, cannot focus on "safer vaccines." If they are not safe now, they will never be safe, because they all contain toxic chemicals that harm us in multiple ways, including neurological disorders like autism, as well as death.

You are right, Mr. President, like you said before the COVID-19 vaccines were released, therapeutics are the answer, and are even better, eliminating the need to use toxic vaccines that are directly injected into our system, bypassing all our detoxifying systems. Because of this, we need clear federal legislation that gives all of us a right to say no to vaccination, for medical, personal, philosophical, or religious reasons. To that end, I propose a bill to achieve this goal. Here is an outline of my bill:

TITLE: THE RIGHT TO SAY NO TO VACCINATION BILL

PURPOSE: Ensure that anyone and all the persons in their care can opt out of vaccination, always.

JUSTIFICATION: Remind government that our right to opt out from vaccination comes from God and not from the government, noting that the U.S. Constitution simply reflects these rights.

TEXT: ELIMINATION OF ALL VACCINE MANDATES. Gives history of the fraud behind vaccines, including Big Pharma, the government, and the mainstream media's collusion to hide vaccine harm from the public, and includes applicable law in our favor.

Mr. President, I believe that with your support, and once you are president for the third time, that your request to legislators to introduce a bill such as I suggest will help it pass in both houses. I am not interested in any recognition for writing the bill and have no issue, and would prefer, that a senator or congressperson, like Chip Roy, Marjorie Taylor Greene, Rand Paul, Matt Gaetz, etc., work with it and put their name on it. Here is the link to my bill: <https://tinyurl.com/RB-No-To-Vaxx-Bill>.

I am at your service. May our Lord God protect you, your family, and your team from all harm. Amen.

Blessings,
